Economic Bulletin

STATISTICAL APPENDIX

Number 1 / 2014
January

SYMBOLS AND CONVENTIONS

Unless indicated otherwise, figures have been computed by the Bank of Italy.

In the following tables:

- the phenomenon in question does not occur
 - the phenomenon occurs but its value is not known
 - .. the value is known but is nil or less than half the final digit shown
 - :: the value is not statistically significant
 - () provisional; estimates are in italics
-

LIST OF TABLES

1	The world economy	Page
1.1	Sources and uses of income: United States	5
1.2	Sources and uses of income: Japan	6
1.3	Sources and uses of income: United Kingdom	7
1.4	Gross domestic product and domestic demand in selected emerging countries	8
1.5	Consumer prices in some industrial and emerging countries	10
1.6	Balance of payments: United States	11
1.7	Balance of payments: Japan	12
1.8	Balance of payments: United Kingdom	13
1.9	Balance of payments of selected emerging countries	14
1.10	International oil prices	16
1.11	Prices in dollars of non-energy raw materials	18
1.12	Indicators of competitiveness in some industrial and emerging countries	19
1.13	Sources and uses of income: France	21
1.14	Sources and uses of income: Germany	22
1.15	Sources and uses of income: euro area	23
1.16	Industrial production in the euro area	24
1.17	Employment in the euro area	25
1.18	Employment in the euro area: percentage changes on the previous period	27
1.19	Employment in the euro area: percentage changes on the year-earlier period	29
1.20	Unemployment rate in the euro area	31
1.21	Unit labour costs, per capita compensation and productivity: France	33
1.22	Unit labour costs, per capita compensation and productivity: Germany	34
1.23	Unit labour costs, per capita compensation and productivity: euro area	35
1.24	Consumer prices in the euro area	36
1.25	Harmonized index of consumer prices: main euro-area countries	37
1.26	Index of producer prices of industrial products sold on the domestic market: main euro-area countries	38
1.27	Expectations and forecasts of consumer price inflation	39
1.28	Balance of payments of the euro area: current and capital account	40
1.29	Balance of payments of the euro area: financial account	41
1.30	Eurosystem interest rates	42

2	The Italian economy	Page
2.1	Sources and uses of income	43
2.2	Industrial production and business opinion indicators	44
2.3	Labour force, employment and unemployment	45
2.4	Contractual earnings	46
2.5	Actual earnings	48
2.6	Unit labour costs, per capita compensation and productivity	49
2.7	National consumer price indices	50
2.8	Harmonized index of consumer prices	52
2.9	Consumer price inflation differentials between Italy and France, Germany and the euro area	53
2.10	Index of producer prices of industrial products sold on the domestic market	54
2.11	Producer prices of industrial products sold on the foreign market	55
2.12	Merchandise exports and imports <i>cif-fob</i> by main countries and areas	56
2.13	Merchandise exports and imports <i>cif-fob</i> by branch of economic activity and balances	57
2.14	Balance of payments: current account and capital account	58
2.15	Balance of payments: financial account	59
2.16	Treasury bill yields and interbank rates	60
2.17	Banks and money market funds: balance sheet	61
2.18	Italian components of euro-area monetary aggregates, excluding currency	63
2.19	Lending by banks in Italy by geographical area and sector	64
2.20	Supervisory capital and capital requirements	65
2.21	Issues of Italian government securities	66
2.22	Net assets and subscriptions of Italian investment funds and foreign funds controlled by Italian intermediaries	67
2.23	Financing of the general government borrowing requirement	68
2.24	General government debt	69
2.25	General government debt: by holding sector and residual maturity	70
	Methodological Notes	71

Further statistical data can be found in the series *Supplements to the Statistical Bulletin*.

(1) Based on the producer prices of manufactures of 62 countries. For the method of calculation see "A New Indicator of Competitiveness for Italy and the Main Industrial and Emerging Countries"; in *Supplements to the Statistical Bulletin*, Methodological Notes, 66, December 2005. Any discrepancies between monthly, quarterly and annual data are due to rounding.

(1) Based on the producer prices of manufactures of 62 countries. For the method of calculation see "A New Indicator of Competitiveness for Italy and the Main Industrial and Emerging Countries", in *Supplements to the Statistical Bulletin*, Methodological Notes, 66, December 2005. Any discrepancies between monthly, quarterly and annual data are due to rounding.

(1) The interest rates on the "Deposit facility" and on the "Marginal lending facility" are fixed by the ECB Governing Council and represent, respectively, the lower and upper limits of the official interest rate corridor. From 28 June 2000 to 8 October 2008 the Eurosystem's main refinancing operations were effected via variable rate auctions; starting 15 October 2008, fixed rate auctions have been used.

(1) Before tax; the annual values are the arithmetic means of monthly rates. The average BOT interest rates are calculated as a quantity-weighted average of the compound allotment rates in the auctions held in the month indicated (3, 6, 12-month and other maturities). Yields are calculated on the basis of the business year (360 days). The interbank rates (overnight, at 1 and 3 months) are recorded daily on the electronic interbank deposit market (e-MID) and therefore refer only to trading on this platform. Especially for the maturities beyond the very short term, the rates shown may therefore be based on a very small number of transactions. They are weighted average bid/ask prices calculated on the basis of the transactions actually concluded in the reference period in the segment specified. The annual averages are simple averages of the monthly data.

(1) The table includes the information on the balance sheet of Cassa Depositi e Prestiti S.p.A.. The annual data refer to the month of December. For the definition of the items and further information, see the tables and methodological appendix of *Supplements to the Statistical Bulletin – Money and Banking*. – (2) As of 2010 the loans series includes all securitized or otherwise assigned loans that do not satisfy the IAS criteria for cancellation, as for the preparation of the financial statements. The application of these criteria has led to the re-recognition of previously cancelled assets, with a consequent increase in the related series. As of the same date securities other than shares held by banks include the asset-backed securities bought back by the same bank when the securitized loans have not been derecognized from their balance sheets. Previously the rules implied that only a small part of these securities were included in the banks' portfolios. The tables and methodological appendix of *Supplements to the Statistical Bulletin – Money and Banking* show the overall impact of the foregoing methodological changes on the main items affected. – (3) Some aggregates with MFIs as the counterparty may record discontinuities due to banking group reorganizations.

(4) As of 2010, securitization liabilities that are the "Counterpart of loans and/or other assets" disposed of in a securitization but still recognized on the statistical balance sheet are included, by convention, among deposits with agreed maturity over two years. – (5) In February 2012 the number of money market investment funds and the value amounts in the corresponding time series underwent significant reduction as a consequence of Regulation ECB/2011/13, which introduced for statistical purposes the same definition of money market fund used by the European Securities and Markets Authority. – (6) As from December 2011, "bonds" includes government-guaranteed bonds pursuant to Law 201/2011. – (7) As of 2010, "capital and reserves" includes provisions for adjustment to loan exposures, previously included under "other liabilities".

(1) The Italian components of euro-area monetary aggregates and the growth rates do not include currency because it is not possible to measure the actual quantity of euro banknotes and coins in each country since the introduction of the euro. M1 includes banks and post office current accounts; M2 is the sum of M1 plus deposits with agreed maturity up to 2 years and deposits redeemable at notice up to 3 months; M3 is the sum of M2 plus repurchase agreements, money market share and units, and bonds issued by MFIs with a maturity of up to 2 years, minus bonds issued by euro-area MFIs held by Italian MFIs. As of October 2007 data for M2 include time and indexed postal savings certificates. On 5 July 2012 the Governing Council of the ECB approved a partial amendment to the definition of monetary and credit aggregates used by the Eurosystem. The new definition became effective in September 2012 and applies retroactively to data from June 2010 on. According to the new definition, the monetary aggregate M3 and loans that are counterparts of M3 do not include repos conducted by MFIs with central counterparties. For details see the methodological appendix and tables of *Supplements to the Statistical Bulletin – Money and Banking*.

METHODOLOGICAL NOTES

Table 2.20

Until 31 December 2006, the definition of supervisory capital and the method of calculating risk-weighted assets were based on the prudential regulatory framework known as Basel I.

On 1 January 2007, the new prudential regulatory framework (Basel II) contained in the Bank of Italy Circular No. 263 of 27 December 2006 (“New regulations for the prudential supervision of banks”) came into force. The new definition of supervisory capital was adopted immediately. Since at the EU level banks were allowed to retain the previous prudential regime for the whole of 2007, the new method of calculating risk-weighted assets only came fully into force on 1 January 2008.

For further information regarding the new definition of supervisory capital and the method of calculating risk-weighted assets see *Istruzioni per la compilazione delle segnalazioni sul patrimonio di vigilanza e sui coefficienti prudenziali* (Circular No. 155 of 18 December 1991), available in Italian on the Bank’s website.
