Notice to readers

'Banks and Money: National Data' is issued monthly and includes aggregated national data on the banking system, which for the most part follow the Eurosystem's harmonized definitions.

The publication comprises 40 tables and is divided into three sections.

Section 1. Banking statistics: balance sheets and other information

Section 2. Bank interest rates

Section 3. Single monetary policy statistics: the Italian components

The [Methods and Sources: Methodological Notes](#) is printed separately but forms an integral part of the publication and describes its content.

Since December 2017, the time series of stocks of "debt securities issued" by banks and "securities other than shares" held in banks' portfolio no longer include the repurchased bonds of own issue. In December 2017 this caused a decrease in the corresponding time series, and consequently a decrease in the "total assets" and "total liabilities" of the system, of approximately 147 billion. For more information see the separate dossier Methods and Sources: Methodological Notes.

General information

- I Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II Symbols and Conventions:
 - the phenomenon does not occur;
 - the phenomenon occurs but its value is not known;
 - .. the value is known but is nil or less than half the final digit shown.

Figures in parentheses in roman type () are provisional. Those in parentheses in italics () are estimated.
- III The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the electronic database holding the information to be released to the public. A similar code identifies the different aggregates shown in each table.
