

We inform web users that, on January 11th 2010, the Venezuelan Government introduced two different exchange rates for the national currency against the US Dollar, depending on the kind of transactions, both commercial and financial, for which the domestic currency might be needed.

Therefore, in addition to the information already available in the "Exchange rates" website section, the June 2011 historical series of the indicative rates of the Bolivar Fuerte (ISO code: VEF; UIC code: 277) and the old Bolivar (ISO code: VEB; UIC code: 035) are both listed below.

The average monthly rates are also added at the bottom of each list.
