General remarks on filling in templates in Annex IV

- Competent authorities shall not disclose supervisory actions or decisions directed at specific institutions. When publishing information on the general criteria and methodologies, competent authorities shall not disclose any supervisory measures directed at specific institutions, whether taken with respect to a single institution or to a group of institutions.
- Numerical cells shall include only numbers. There shall be no references to national currencies. The currency used is euros and non-euro area Member States shall convert their national currencies into euros using the ECB exchange rates (at the common reference date, i.e. the last day of the year under review), with one decimal place when disclosing amounts in millions.
- Unit of disclosure shall be in millions of euro for the reported monetary amounts (hereafter MEUR).
- Percentages shall be disclosed with two decimals.
- If data is not being disclosed, the reason for non-disclosure shall be provided using the EBA nomenclature, i.e. N/A (for not available) or C (for confidential).
- The data shall be disclosed on an aggregated basis without identifying individual either credit institutions or investment firms.
- The references to COREP templates pursuant to the Commission implementing regulation (EU) No 680/2014 are provided in Parts 1 to 4, where available.
- Competent authorities shall collect data relating to XXXX year onwards on consolidated basis. This will ensure the consistency of the information collected.
- The templates of this Annex shall be read in conjunction with the reporting scope of consolidation hereby defined. To ensure efficient data collection, the information for credit institutions and investment firms shall be reported separately, but the same level of consolidation shall be applied in both cases.
- In order to ensure the coherence and comparability of reported data, the ECB shall publish only aggregate statistical data for supervised entities for which it conducts and exercises direct supervision at the reference date of the disclosure, while national competent authorities shall publish aggregate statistical data only for credit institutions not directly supervised by the ECB.
- Data shall be compiled only for investment firms subject to CRD. Investment firms which are not subject to CRD regime are excluded from the data collection exercise.
