

15 July 2014

PRESS RELEASE

CONSOLIDATED FINANCIAL STATEMENT OF THE EUROSYSTEM AS AT 11 JULY 2014

Items not related to monetary policy operations

In the week ending 11 July 2014 the increase of EUR 1 million in **gold and gold receivables** (asset item 1) reflected the purchase of gold coin by one Eurosystem central bank.

The net position of the Eurosystem in foreign currency (asset items 2 and 3 minus liability items 7, 8 and 9) decreased by EUR 0.1 billion to EUR 212.9 billion on account of customer and portfolio transactions.

During the week, the Eurosystem did not conduct any liquidity-providing transactions in connection with the standing swap arrangement that the European Central Bank has with the Federal Reserve System.

The holdings by the Eurosystem of marketable **securities other than those held for monetary policy purposes** (asset item 7.2) increased by EUR 2.3 billion to EUR 364 billion. **Banknotes in circulation** (liability item 1) increased by EUR 1.3 billion to EUR 965.2 billion. **Liabilities to general government** (liability item 5.1) increased by EUR 7 billion to EUR 107.2 billion.

Items related to monetary policy operations

The Eurosystem's net lending to credit institutions (asset item 5 minus liability items 2.2, 2.3, 2.4, 2.5 and 4) decreased by EUR 9.6 billion to EUR 509 billion. On Wednesday, 9 July 2014, a **main refinancing operation** of EUR 97.1 billion matured and a new one of EUR 94.2 billion, with a maturity of one week, was settled.

During the week, a **longer-term refinancing operation** of EUR 10 billion matured, without a new operation being settled. In addition, EUR 4 billion of longer-term refinancing operations was repaid before maturity.

Recourse to the **marginal lending facility** (asset item 5.5) was EUR 0.2 billion (compared with virtually nil in the preceding week), while recourse to the **deposit facility** (liability item 2.2) was EUR 20.2 billion (compared with EUR 27.3 billion in the preceding week).

The holdings by the Eurosystem of **securities held for monetary policy purposes** (asset item 7.1) decreased by EUR 0.4 billion to EUR 204.8 billion. This decrease was due to the redemption of securities acquired under the first and second covered bond purchase programmes. Therefore, in the week ending 11 July 2014, the value of accumulated purchases under the Securities Markets Programme amounted to EUR 156.3 billion, while the value of the portfolios held under the first and second covered bond purchase programmes totalled EUR 34.4 billion and EUR 14.1 billion respectively. All three portfolios are accounted for on a held-to-maturity basis.

Current accounts of euro area credit institutions

As a result of all transactions, the **current account** position of credit institutions with the Eurosystem (liability item 2.1) decreased by EUR 8.1 billion to EUR 206.2 billion.
