

Call for Papers: ToDeFi – Torino Decentralized Finance Conference 2025 – Rome Edition

Bank of Italy Conference Centre “Carlo Azeglio Ciampi”
via Nazionale, 190 - **Rome, June 19-20, 2025**

Submission Deadline: 01.03.2025

Please submit the paper to: todefi@carloalberto.org

The Torino Decentralized Finance Conference (ToDeFi) is pleased to announce its 2025 Rome Edition, focusing on frontier research in Decentralized Finance (DeFi). As DeFi platforms continue to revolutionize financial systems globally, the need for cutting-edge research has never been more critical. This conference aims to foster the highest level of academic discourse on the evolving DeFi landscape and its interaction with the crypto-asset ecosystem (wallet providers, exchanges, financial intermediaries, etc.), bringing together top-tier research and thought leadership.

We invite submissions from both junior researchers and established scholars who are working on innovative projects in the realm of DeFi. The conference seeks to highlight the latest theoretical, empirical, and applied research in areas such as:

- Blockchain and smart contract innovations in DeFi
- Liquidity management and decentralized exchanges (DEXs)
- Risk management and security in DeFi protocols
- Governance models and decentralized autonomous organizations (DAOs)
- Regulation and policy implications for DeFi
- Integration of traditional finance with DeFi
- Algorithmic and game-theoretic approaches in DeFi markets
- Tokenization of real world assets and DeFi: policy implications for central banks and other public authorities

We host the conference on-site, and we will provide accommodation (19th to the 20th of June 2025). Depending on the number of speakers, travel and transportation might be reimbursed up to €200. A conference dinner for the 19th of June is planned as well. The program of previous editions can be found [here](#).

Scientific Committee:

Lorenzo Schönleber (Collegio Carlo Alberto, University of Turin)

Andrea Nobili (Banca d'Italia – Directorate General for Payments and market infrastructures)

Andrea Orame (Banca d'Italia – Turin)

Marcello Pericoli (Banca d'Italia – Directorate General for Payments and market infrastructures)
