STATISTICAL APPENDIX

Number 1 / 2016
January

LIST OF TABLES

1 THE WORLD ECONOMY

1.1	Sources and uses of income: United States	7
1.2	Sources and uses of income: Japan	8
1.3	Sources and uses of income: United Kingdom	9
1.4	Gross domestic product and domestic demand in selected emerging countries	10
1.5	Consumer prices in some industrial and emerging countries	12
1.6	Balance of payments: United States	13
1.7	Balance of payments: Japan	14
1.8	Balance of payments: United Kingdom	15
1.9	Balance of payments of selected emerging countries	16
1.10	International oil prices	18
1.11	Prices in dollars of non-energy raw materials	20
1.12	Indicators of competitiveness in some industrial and emerging countries	21
1.13	Sources and uses of income: France	23
1.14	Sources and uses of income: Germany	24
1.15	Sources and uses of income: euro area	25
1.16	Industrial production in the euro area	26
1.17	Employment in the euro area: persons	27
1.18	Employment in the euro area: percentage changes on the previous period	29
1.19	Employment in the euro area: percentage changes on the year-earlier period	31
1.20	Unemployment rate in the euro area	33
1.21	Unit labour costs, per capita compensation and productivity: France	35

1.22	Unit labour costs, per capita compensation and productivity: Germany	36
1.23	Unit labour costs, per capita compensation and productivity: euro area	37
1.24	Consumer prices in the euro area	38
1.25	Harmonized index of consumer prices: main euro-area countries	39
1.26	Index of producer prices of industrial products sold on the domestic market: main euro-area countries	40
1.27	Inflation expectations and forecasts in the euro area and in its main economies	41
1.28	Eurosystem interest rates	42

2 THE ITALIAN ECONOMY

2.1	Sources and uses of income	43
2.2	Industrial production and business opinion indicators	44
2.3	Labour force, employment and unemployment	45
2.4	Contractual earnings	46
2.5	Actual earnings	48
2.6	Unit labour costs, per capita compensation and productivity	50
2.7	National consumer price indices	51
2.8	Harmonized index of consumer prices	53
2.9	Inflation differentials between Italy and France, Germany and the euro area	54
2.10	Index of producer prices of industrial products sold on the domestic market	55
2.11	Index of producer prices of industrial products sold on the foreign market	56
2.12	Merchandise exports and imports in CIF-FOB value by main countries and areas	57
2.13	Merchandise exports, imports and balances in CIF-FOB value by sector of economic activity	58
2.14	Balance of payments: current account and capital account	59
2.15	Balance of payments: financial account	60
2.16	Treasury bill yields and interbank rates	61

2.17	Banks and money market funds: balance sheet	62
2.18	Italian components of euro-area monetary aggregates, excluding currency	64
2.19	Lending by banks in Italy by geographical area and sector	65
2.20	Supervisory capital and capital requirements	66
2.21	Issues of Italian government securities	67
2.22	Net assets and subscriptions of Italian investment funds and foreign funds controlled by Italian intermediaries	68
2.23	Financing of the general government borrowing requirement	69
2.24	General government debt	70
2.25	General government debt by holding sector and residual maturity	71
	METHODOLOGICAL NOTES	72

Further statistical data can be found in the series *Supplements to the Statistical Bulletin*.

SYMBOLS AND CONVENTIONS

Unless indicated otherwise, figures have been computed by the Bank of Italy.

In the following tables:

- the phenomenon in question does not occur
 - the phenomenon occurs but its value is not known
 - .. the value is known but is nil or less than half the final digit shown
 - :: the value is not statistically significant
 - () provisional
-

(1) Based on the producer prices of manufactures of 62 countries. For the method of calculation see A. Feletti, C. Giordano, G. Oddo and V. Romano, *Reassessing price-competitiveness indicators of the four largest euro-area countries and of their main trading partners*, Banca d'Italia, *Questioni di Economia e Finanza* (Occasional Papers), 280, 2015. Rounding may cause discrepancies between monthly, quarterly and annual data.

(1) The interest rates on the 'Deposit facility' and on the 'Marginal lending facility' are fixed by the ECB Governing Council and represent, respectively, the lower and upper limits of the official interest rate corridor. From 28 June 2000 to 8 October 2008 the Eurosystem's main refinancing operations were effected via variable rate auctions; starting 15 October 2008, fixed rate auctions have been used.

(1) Before tax; the annual values are the arithmetic means of monthly rates. The average BOT interest rates are calculated as a quantity-weighted average of the compound allotment rates in the auctions held in the month indicated (3, 6, 12-month and other maturities). Yields are calculated on the basis of the business year (360 days). The interbank rates (overnight, at 1 and 3 months) are recorded daily on the electronic interbank deposit market (e-MID) and therefore refer only to trading on this platform. Especially for the maturities beyond the very short term, the rates shown may therefore be based on a very small number of transactions. They are weighted average bid/ask prices calculated on the basis of the transactions actually concluded in the reference period in the segment specified. The annual averages are simple averages of the monthly data.

(1) The table includes the information on the balance sheet of Cassa Depositi e Prestiti S.p.A. The annual data refer to the month of December. For the definition of the items and further information, see the tables and methodological appendix of 'Monetary and Financial Indicators – Money and Banking', Supplements to the Statistical Bulletin. – (2) The loans series includes all securitized or otherwise assigned loans that do not satisfy the IAS criteria for cancellation, as for the preparation of the financial statements. Securities held by banks include the asset-backed securities bought back by the same bank when the securitized loans have not been derecognized from their balance sheets. – (3) Some aggregates with MFIs as the counterparty may record discontinuities due to banking group reorganizations.

(4) Securitization liabilities that are the 'Counterpart of loans and/or other assets' disposed of in a securitization but still recognized on the statistical balance sheet are included, by convention, among deposits with agreed maturity over two years. – (5) In February 2012 the number of money market investment funds and the value amounts in the corresponding time series underwent significant reduction as a consequence of Regulation ECB/2011/13, which introduced for statistical purposes the same definition of money market fund used by the European Securities and Markets Authority. – (6) As from December 2011, 'Bonds' includes government-guaranteed bonds pursuant to Law 201/2011. – (7) 'Capital and reserves' includes provisions for adjustment to loan exposures and as of June 2015, profits (or losses) carried forward and profits (or losses) accumulating during the accounting period, which were previously itemized under 'Remaining assets' and 'Remaining liabilities'.

Nov.	918.7	6.7	1,350.8	2.6	1,369.6	1.9

(1) The Italian components of euro-area monetary aggregates and the growth rates do not include currency because it is not possible to measure the actual quantity of euro banknotes and coins in each country since the introduction of the euro. M1 includes banks and post office current accounts; M2 is the sum of M1 plus deposits with agreed maturity up to 2 years and deposits redeemable at notice up to 3 months; M3 is the sum of M2 plus repurchase agreements, money market share and units, and bonds issued by MFIs with a maturity of up to 2 years, minus bonds issued by euro-area MFIs held by Italian MFIs. Data for M2 include time and indexed postal savings certificates. On 5 July 2012 the Governing Council of the ECB approved a partial amendment to the definition of monetary and credit aggregates used by the Eurosystem. The new definition became effective in September 2012 and applies retroactively to data from June 2010 on. According to the new definition, the monetary aggregate M3 and loans that are counterparts of M3 do not include repos conducted by MFIs with central counterparties. For details see the methodological appendix and tables of 'Monetary and Financial Indicators – Money and Banking'. Supplements to the Statistical Bulletin.

METHODOLOGICAL NOTES

Table 2.20

Supervisory capital and capital requirements

Until 31 December 2006, the definition of supervisory capital and the method of calculating risk-weighted assets were based on the prudential regulatory framework known as Basel I.

From 1 January 2007 through 31 December 2013, the prudential regulatory framework in force (Basel II) was that contained in Bank of Italy Circular No. 263 of 27 December 2006 (New regulations for the prudential supervision of banks). The new definition of supervisory capital was applied immediately. Since at the EU level banks were allowed to retain the previous prudential regime for the whole of 2007, the new method of calculating risk-weighted assets only came fully into force on 1 January 2008.

For further information regarding the definition of supervisory capital and the method of calculating risk-weighted assets used until the end of 2013, see *Istruzioni per la compilazione delle segnalazioni sul patrimonio di vigilanza e sui coefficienti prudenziali* (Circular No. 155 of 18 December 1991), available in Italian on the Bank's website.

Starting 1 January 2014, new rules on banks' capital came into force, namely the Basel III rules as defined for Europe by the fourth Capital Requirements Directive (CRD IV) and the Capital Requirements Regulation (CRR). In Italy, these rules will be fully phased in by 2018.

For further information on the new definition of own funds and the new methods for calculating risk-weighted assets, see *Istruzioni per la compilazione delle segnalazioni prudenziali per le banche e le società di intermediazione mobiliare* (Circular No. 286 of 17 December 2013), available only in Italian on the Bank's website.
