total and average amounts, by customer sector**

(millions of euros; data at 30 June 2017)

Reference period: June 2017

Banks and Financial Institutions: Credit Conditions and Risk by Sector and Geographical Area

Notice to Users

Banks and Financial Institutions: Credit Conditions and Risk by Sector and Geographical Area is one of the three new stand-alone specialized publications which are replacing the *Statistical Bulletin* over the course of 2017. This new report will be published quarterly and contains statistical data on the financial and credit system, in particular on borrower characteristics, credit quality and borrowing terms and conditions (rates and guarantees) disaggregated by sector and geographical area.

A more detailed description of the content of the report and of the sources used is provided in *Banks and Financial Institutions: Credit Conditions and Risk by Sector and Geographical Area*, Bank of Italy, *Statistics*, [Methods and Sources: Methodological Notes](#), 29 September 2017.

The report is composed of 44 tables (15 of which only in the [Statistical Database \(BDS\)](#)) taken from the old *Statistical Bulletin's* Section B – Information on Banking and Financial Business, Sub-Sections B3 and B4, in Section D – Information on Customers and on Risk and in Section E1 – Lending Rates.

In this new publication the titles and codes of the tables in the old *Statistical Bulletin* have been modified and new terminology has been adopted to clarify the main concepts while the content remains unchanged. The definitions have been aligned to those utilized by other statistical publications which describe the same phenomena.

The links between the old and the new terminology as well as the codes and titles of the tables are listed in the [Conversion Chart](#).

Notice to readers

- I. Symbols:
 - the phenomenon does not exist, or it exists and data are collected but no cases were recorded
 - the phenomenon exists but no data are available
 - .. the data are known but the value is below the minimum considered significant
 - == the data are confidential
 - :: the data are not statistically significant
- II. The intervals for the classification by size include the lower limit and exclude the upper limit.
- III. The source must be cited in any use or dissemination of the information contained in the publications. The Bank of Italy is not responsible for any errors of interpretation or mistaken conclusions drawn on the basis of the information published.
- IV. The row and column totals of some tables may not tally with the sum of the entries because they include data that cannot be allocated.
- V. A brief description of the methodology, the main statistical sources and the revisions to methodology concerning the data provided in this report is available in '*Banks and Financial Institutions: Credit Conditions and Risk by Sector and Geographical Area*, Bank of Italy, Statistics, [Methods and Sources: Methodological Notes](#), 29 September 2017.

Average number of banks per borrower [TRI30476](#)

by customer economic activity and total credit granted (size classes)

Risk Concentration

Tables distributed on the "BDS on-line statistical database" only

Largest borrowers' share of loans (excluding bad loans) [TRI30361](#)

by province of customer

Largest borrowers' shares of bad loans (gross of write-downs and net of write-offs) [TRI30401](#)

by province of customer

Non-performing Loans

based on Supervisory Returns observations

Loans	TRI30266	p.33
by type of default		
Non-performing loans	TRI30267	p.34
by type of default, customer region and sector and purpose of loan		

based on Central Credit Register observations

Bad loans (gross of write-downs and net of write-offs)	TRI30206	p.37
by size class		
Bad loans (gross of write-downs and net of write-offs)	TRI30031	p.38
by customer geographical area, sector and economic activity		
Bad loans (gross of write-downs and net of write-offs)	TRI30231	p.39
by customer sector and sub-sector		
Bad loans (gross of write-downs and write-offs)	TRI30226	p.40
by type of guarantee and customer economic activity		
Bad loans (gross of write-downs and write-offs)	TRI30033	p.41
by type of guarantee, customer geographical area, sector and economic activity		
Adjusted bad loans	TRI30265	p.42
by customer region		
Adjusted bad loans	TRI30271	p.43
by customer sector and economic activity		

Tables distributed on the "BDS on-line statistical database" only

Bad loans (gross of write-downs and net of write-offs)	TRI30211
by customer province, sector and economic activity	
Bad loans (gross of write-downs and net of write-offs): flows	TRI30241
by customer region	
Bad loans (gross of write-downs and net of write-offs): flows	TRI30251
by customer sector and economic activity	

Default Rates for Loan Facilities

Default rates for loans	TRI30486	p.44
by customer sector and total credit used (size classes)		
<i>Tables distributed on the "BDS on-line statistical database" only</i>		
Default rates for loans	TRI30496	
by customer region and sector		
Default rates for loans	TRI30507	
by customer province and sector		
Default rates for loans	TRI30516	
by customer region and total credit used (size classes)		
Default rates for loans	TRI30524	
by customer geographical area, sector and economic activity		
Default rates for loans	TRI30529	
by customer geographical area and economic activity and total credit used (size classes)		

Lending Rates

Lending rates on loans (excluding bad loans): stocks	TRI30821	p.46
by initial period of rate fixation, customer geographical area, sector and economic activity		
Lending rates on revocable loans: stocks	TRI30830	p.47
by customer region and total credit granted (size classes)		
Lending rates on loans (excluding bad loans) to the productive sector: stocks	TRI30840	p.48
by type of transaction, initial period of rate fixation, customer geographical area and total credit granted (size classes)		
Lending rates on loans (excluding bad loans) to the productive sector: stocks	TRI30850	p.50
by initial period of rate fixation, type of transaction and customer geographical area		
Lending rates on loans (excluding bad loans) to the productive sector	TRI30861	p.51
by type of transaction, initial period of rate fixation and by customer economic activity		
APRC on term loans to the productive sector: new business in the quarter	TRI30870	p.52
by initial period of rate fixation and customer geographical area		
Lending rates on loans (excluding bad loans) to consumer households: stocks	TRI30880	p.53
by type of transaction, initial period of rate fixation and customer region		
Lending rates applied to loans (excluding bad loans) for house purchase: stocks	TRI30890	p.54
by initial period of rate fixation, customer region and total credit granted (size classes)		
APRC applied to loans (excluding bad loans) for house purchase: new business in the quarter	TRI30900	p.55
by initial period of rate fixation, customer geographical area and total credit granted (size classes)		
Lending rates on matched and revocable loans: stocks	TRI30921	p.56
by customer region, sector and economic activity

Other exposures	1,644,081	1,641,448	1,644,321

TOTAL LOANS TO CUSTOMERS

1,975,536	2,000,072	2,001,735
-----------	-----------	-----------

Notes: This table basically corresponds to the previous table TDB30266. Loans covered by concessions are credit exposures that fall into the categories of "Non-performing exposures with forbearance measures" and "Forborne performing exposures" as defined by the EBA's International Technical Standards. The data include transactions with resident and non-resident customers, excluding interbank relations. The data are reported at book value excluding interest for late payment. Non-performing loans do not include securities classified as held for trading, these are instead included in the loans (performing) not subject to forbearance.

Notes: This table basically corresponds to the previous table TDB30861. Only lending in euros to resident productive sector is considered. The rates are calculated as the weighted average of the actual rates charged to customers, excluding transactions at subsidized interest rates (for further information see: "Methods and Sources: Methodological Notes"). The APRC is calculated as the average of the rates weighted by the respective amounts, excluding transactions at subsidized interest rates.
