

BANCA D'ITALIA

Supplements to the Statistical Bulletin
Monetary and Financial Indicators

Public Finance Statistics
in the European Union

New series

Volume XIV Number 69 - 31 December 2004

GENERAL INFORMATION

- I - Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II - Symbols and Conventions:
 - the phenomenon in question does not occur;
 - the phenomenon occurs but its value is not known;
 - .. the value is known but is nil or less than half the final digit shown.

Figures in parentheses in roman type () are provisional, those in parentheses in italics () are estimated.
- III - The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the database in the electronic archive in which information to be released to the public is held. A similar code identifies the different aggregates shown in each table.
- IV - The methodological notes in the last part of the Supplement are identified by electronic codes that refer to the tables and, within each table, to the individual aggregates. Notes that refer to a single observation are also identified by the date of that observation.

SUPPLEMENTS TO THE STATISTICAL BULLETIN

Monetary Financial Institutions: Banks and Money Market Funds (monthly)

The Financial Market (monthly)

The Public Finances (monthly)

Balance of Payments (monthly)

Monetary and Credit Aggregates of the Euro Area: the Italian Components (monthly)

Financial Accounts (quarterly)

Payment System (half yearly)

Public Finance Statistics in the European Union (annual)

Local Government Debt (annual)

Methodological Notes and Statistical Information (irregular)

All the supplements are available on the Bank of Italy's site (www.bancaditalia.it).

Requests for classifications concerning data contained in this publication can be sent by e-mail to statistiche@bancaditalia.it

CONTENTS

General information

Table 1 – (TUEE0100) – Net borrowing/lending

Table 2 – (TUEE0110) – Primary net borrowing/lending

Table 3 – (TUEE0120) – Current account balance

Table 4 – (TUEE0130) – Capital account balance

Table 5 – (TUEE0140) – Gross public debt

Table 6 – (TUEE0150) – Total revenue

Table 7 – (TUEE0160) – Current revenue

Table 8 – (TUEE0170) – Tax revenue and social security contributions

Table 9 – (TUEE0180) – Tax revenue and social security contributions, excluding capital taxes

Table 10 – (TUEE0190) – Tax revenue

Table 11 – (TUEE0200) – Tax revenue, excluding capital taxes

Table 12 – (TUEE0210) – Direct taxes

Table 13 – (TUEE0220) – Indirect taxes

Table 14 – (TUEE0230) – Social security contributions

Table 15 – (TUEE0240) – Total expenditure

Table 16 – (TUEE0250) – Total expenditure, excluding interest payments

Table 17 – (TUEE0260) – Current expenditure

Table 18 – (TUEE0270) – Current expenditure, excluding interest payments

Table 19 – (TUEE0280) – Interest payments

Table 20 – (TUEE0290) – Final consumption expenditure

Table 21 – (TUEE0300) – Compensation of employees

Table 22 – (TUEE0310) – Individual consumption; Collective consumption

Table 23 – (TUEE0320) – Current transfers

Table 24 – (TUEE0330) – Current transfers to households

Table 25 – (TUEE0340) – Current transfers to enterprises

Table 26 – (TUEE0350) – Investment

Methodological appendix

METHODOLOGICAL APPENDIX

GENERAL INDICATIONS

The series refer to the consolidated general government accounts and gross debt of the countries belonging to the European Union in 2003 (EU; Belgium, Denmark, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal, Finland, Sweden and the United Kingdom) and the remaining G7 countries (the United States, Japan and Canada). The times series cover the period 1980–2003. For publishing convenience, the paper version of the Supplement gives the data only for 1985–2003; those for the years 1980–84 are available in the electronic version of the Supplement.

The EU data in this Supplement are those obtained for the excessive deficit procedure laid down in the Maastricht Treaty. Until 2000 the definition of the net borrowing used for the excessive deficit procedure was the same as that used in preparing national accounts. In 2001 the latter definition was changed by excluding the effects of swaps and forward rate agreements from interest payments and hence from the budget balance. The definition of net borrowing used in the excessive deficit procedure was not changed and thus continues to include the effects of swap and forward rate agreements. Both definitions refer to ESA95 and are the same in every other respect.

The sources used are as follows:

- Istat, for Italy;
- European Commission, DG II Economic and Financial Affairs, General Government Data, October 2004, for EU countries; for data on capital taxes based on ESA79, European Commission, March 1999 and Eurostat <http://europa.eu.int/newcronos/>, supplemented by data supplied directly by the Commission;
- OECD, Annual National Accounts 2004 at www.sourceoecd.org (as updated to July 2004) for the items of the economic accounts of the United States, Japan and Canada;
- OECD, Economic Outlook 2004 at www.sourceoecd.org (as updated to July 2004) for the GDP and debt of the United States, Japan and Canada.

Owing to the differences between the methods used by the OECD and the other sources in constructing general governments accounts, the single items are strictly comparable only for the EU countries.

The transition from the 1979 version of the European System of Accounts (ESA79) to the 1995 version (ESA95) resulted in some breaks for the EU countries in the series on public debt and the items of the general government accounts.

For Italy, the data are based on ESA95.

For the other EU countries, data processed according to ESA95 are available for differing time periods. For comparability, this Supplement sets the accounting change always in the same year. The data for 1980–1994 are based on ESA79 and those from 1995 onwards on ESA95. In the tables the breaks are marked by a boldface vertical line.

Some of the Commission data concerning individual items of the general government accounts of the EU countries have been adjusted. In particular, for those based on ESA79, the Commission disaggregation does not show total capital revenue and total capital expenditure separately, but gives only the balance, i.e. net capital expenditure. Here, in order to obtain the separate items, the Commission data have been supplemented by other data provided by Eurostat and the Commission itself, and by Bank of Italy estimates where necessary. As a first step, series were constructed for capital revenue. These were then used, together with the Commission series for net capital expenditure, to obtain series for total capital expenditure. The capital revenue and expenditure series were then used to recalculate the series for total revenue and total expenditure, which thus

differ from those used by the EU Commission (in particular, total expenditure was not obtained by adding capital expenditure net of capital revenue to current expenditure, as the Commission does, but by adding total capital expenditure). Instead, for the data based on ESA95, total expenditure series (obtained as the sum of current expenditure and capital expenditure) and total revenue series (inclusive of capital revenue) are available from the Commission.

The data on current transfers are obtained as total current expenditure less expenditure for interest and final consumption.

The data on final consumption expenditure are decomposed into collective and individual consumption only for those based on ESA95.

For the individual items of the accounts, averages have been calculated for the EU as a whole and for the countries in the euro area (Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland) – both including and excluding Italy – and for the three largest economies other than Italy: France, Germany and the United Kingdom. The averages are weighted using ratios of the GDP of each country expressed in euros to the total GDP of the relevant group of countries. The values of GDP used are those determined for the excessive deficit procedure. Where a figure is missing for a country, the average has been calculated omitting that country. The averages have been computed using data (including those for Italy) based on ESA79 until 1994.

For the sake of the comparability, the euro area includes Greece in all the years considered.

The data for the EU countries do not include the proceeds of sales of third-generation mobile telephony (UMTS) licences.

The figures for Germany up to and including 1990 refer to the country's western regions.

Because of rounding, the sum of the separate items may sometimes differ from the total shown.

Prepared by Paola Umaldi and Stefania Zotteri. The Bank of Italy thanks the Economic and Financial Affairs Directorate General of the European Commission, Eurostat and the OECD for permission to use data they produce.

NOTES TO THE TABLES

The order of the tables in the following notes is based on their code numbers. The notes to each table are set out below, together with references to the "Notes to the classification variables" section where appropriate.

TUEE0100 – NET BORROWING (+)/LENDING (–)

The balance of the consolidated general government accounts (excluding financial transactions). The item corresponds to the net resources the general government makes available to other sectors.

TUEE0260). A positive balance indicates a deficit, a negative balance a surplus, i.e. public saving.

TUEE0110 – PRIMARY NET BORROWING (+)/LENDING (–)

Net borrowing or lending excluding interest payments (see the note to Table TUEE0280).

TUEE0130 – CAPITAL ACCOUNT BALANCE

The difference between capital expenditure and capital revenue.

TUEE0120 – CURRENT ACCOUNT BALANCE

The difference between current expenditure and current revenue (see the notes to Tables TUEE0160 and

TUEE0140 – GROSS PUBLIC DEBT

For the EU countries, the definition is that adopted for the excessive deficit procedure provided for in the Treaty on the European Union (on the basis of the methods specified in Council Regulation 3605/93). The aggregate refers to the total gross debt at the nominal value outstanding at the end of the year of general government, with the exception of those liabilities of which the corresponding financial assets are held by the sector of general government.

For the United States, Japan and Canada, data are processed according to SNA93.

TUEE0150 – TOTAL REVENUE

The sum of current revenue and capital revenue.

TUEE0160 – CURRENT REVENUE

The sum of direct taxes, indirect taxes, social security contributions and other current revenue. Current revenue does not include current transfers from the rest of the world.

TUEE0170 – TAX REVENUE AND SOCIAL SECURITY CONTRIBUTIONS

The sum of direct and indirect taxes, social security contributions and capital taxes (see the notes to Tables TUEE0210, TUEE0220 and TUEE0230).

TUEE0180 – TAX REVENUE AND SOCIAL SECURITY CONTRIBUTIONS, EXCLUDING CAPITAL TAXES

The sum of direct and indirect taxes and social security contributions (see the notes to Tables TUEE0210, TUEE0220 and TUEE0230).

TUEE0190 – TAX REVENUE

The sum of direct, indirect and capital taxes (see the notes to Tables TUEE0210 and TUEE0220).

TUEE0200 – TAX REVENUE, EXCLUDING CAPITAL TAXES

The sum of direct and indirect taxes (see the notes to Tables TUEE0210 and TUEE0220).

TUEE0210 – DIRECT TAXES

Taxes on income and wealth due to general government or the rest of the world.

TUEE0220 – INDIRECT TAXES

Taxes on the production and importation of goods and services due to general government.

TUEE0230 – SOCIAL SECURITY CONTRIBUTIONS

The sum of actual social security contributions paid by workers and employers (directly or through ad hoc agencies) and imputed social security contributions. The figures for Canada do not include imputed social security contributions.

TUEE0240 – TOTAL EXPENDITURE

The sum of current and capital expenditure.

TUEE0250 – TOTAL EXPENDITURE, EXCLUDING INTEREST PAYMENTS

The difference between total expenditure and interest payments (see the note to Table TUEE0280).

TUEE0260 – CURRENT EXPENDITURE

The sum of current transfers, interest payments and final consumption expenditure.

TUEE0270 – CURRENT EXPENDITURE, EXCLUDING INTEREST PAYMENTS

The difference between current expenditure and interest payments (see the note to Table TUEE0280).

TUEE0280 – INTEREST PAYMENTS

Interest payments and other borrowing costs, including the effects of swaps and forward rate agreements.

TUEE0290 – FINAL CONSUMPTION EXPENDITURE

The sum of the expenditure incurred by general government (compensation of employees, purchases of goods and services and consumption of fixed capital) for

the satisfaction of individual or collective needs (see the note to Table TUEE0310).

TUEE0300 – COMPENSATION OF EMPLOYEES

General government payments in cash or in kind to employees, including net earnings and actual and imputed social security contributions.

TUEE0310 – INDIVIDUAL CONSUMPTION; COLLECTIVE CONSUMPTION

Expenditure incurred by general government (compensation of employees, purchases of goods and services and consumption of fixed capital) for the satisfaction of individual needs in the first case and collective needs in the second.

TUEE0320 – CURRENT TRANSFERS

The sum of current transfers to enterprises and households (including private non-profit institutions), net

transfers to the rest of the world and other current transfers (e.g. net accident insurance premiums).

TUEE0330 – CURRENT TRANSFERS TO HOUSEHOLDS

Social benefits, including all current transfers to households serving to insure against certain types of risks and necessities; current transfers to private non-profit institutions include all voluntary contributions and membership fees.

TUEE0340 – CURRENT TRANSFERS TO ENTERPRISES

Production and import subsidies that general government or the institutions of the European Union pay to resident units producing goods and services.

TUEE0350 – INVESTMENT

Fixed capital formation, consisting of the value of purchases of (tangible and intangible) durable goods to be utilized for a period longer than one year. The data based on ESA79 include net purchases of land.
