

BANCA D'ITALIA

Supplements to the Statistical Bulletin
Monetary and Financial Indicators

Public Finance Statistics
in the European Union

New series

Volume XV Number 70 - 30 December 2005

GENERAL INFORMATION

- I - Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II - Symbols and Conventions:
 - the phenomenon in question does not occur;
 - the phenomenon occurs but its value is not known;
 - .. the value is known but is nil or less than half the final digit shown.

Figures in parentheses in roman type () are provisional, those in parentheses in italics () are estimated.
- III - The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the database in the electronic archive in which information to be released to the public is held. A similar code identifies the different aggregates shown in each table.
- IV - The methodological notes in the last part of the Supplement are identified by electronic codes that refer to the tables and, within each table, to the individual aggregates. Notes that refer to a single observation are also identified by the date of that observation.

SUPPLEMENTS TO THE STATISTICAL BULLETIN

Monetary Financial Institutions: Banks and Money Market Funds (monthly)

The Financial Market (monthly)

The Public Finances (monthly)

Balance of Payments (monthly)

Monetary and Credit Aggregates of the Euro Area: the Italian Components (monthly)

Financial Accounts (quarterly)

Payment System (half yearly)

Public Finance Statistics in the European Union (annual)

Local Government Debt (annual)

Sample Surveys (irregular)

Methodological Notes (irregular)

All the supplements are available on the Bank of Italy's site (www.bancaditalia.it).

Requests for clarifications concerning data contained in this publication can be sent by e-mail to statistiche@bancaditalia.it

CONTENTS

General information

Table 1 – (TUEE0100) – Net borrowing/lending

Table 2 – (TUEE0110) – Primary net borrowing/lending

Table 3 – (TUEE0120) – Current account balance

Table 4 – (TUEE0130) – Capital account balance

Table 5 – (TUEE0140) – Gross public debt

Table 6 – (TUEE0150) – Total revenue

Table 7 – (TUEE0160) – Current revenue

Table 8 – (TUEE0170) – Tax revenue and social security contributions

Table 9 – (TUEE0180) – Tax revenue and social security contributions, excluding capital taxes

Table 10 – (TUEE0190) – Tax revenue

Table 11 – (TUEE0200) – Tax revenue, excluding capital taxes

Table 12 – (TUEE0210) – Direct taxes

Table 13 – (TUEE0220) – Indirect taxes

Table 14 – (TUEE0230) – Social security contributions

Table 15 – (TUEE0240) – Total expenditure

Table 16 – (TUEE0250) – Total expenditure, excluding interest payments

Table 17 – (TUEE0260) – Current expenditure

Table 18 – (TUEE0270) – Current expenditure, excluding interest payments

Table 19 – (TUEE0280) – Interest payments

Table 20 – (TUEE0290) – Final consumption expenditure

Table 21 – (TUEE0300) – Compensation of employees

Table 22 – (TUEE0310) – Individual consumption; Collective consumption

Table 23 – (TUEE0320) – Current transfers

Table 24 – (TUEE0330) – Current transfers to households

Table 25 – (TUEE0340) – Current transfers to enterprises

Table 26 – (TUEE0350) – Investment

Table 27 – (TUEE0360) – Net borrowing/lending of new EU member states

Table 28 – (TUEE0370) – Gross public debt of new EU member states

Table 29 – (TUEE0380) – Total revenue of new EU member states

Table 30 – (TUEE0390) – Total expenditure of new EU member states

METHODOLOGICAL APPENDIX

GENERAL INDICATIONS

The series refer to the consolidated general government accounts and gross debt of the European Union countries and of the remaining G-7 countries (the United States, Japan and Canada). The data referring to European countries are those obtained for the Excessive deficit procedure laid down in the Maastricht Treaty.

For the countries which joined the European Union in May 2004 (Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia), the time series cover only a short period. This Supplement includes data on the main public finance aggregates (net borrowing/lending, gross public debt, total revenue and total expenditure) for the years 2000-04.

For the other European countries (Belgium, Denmark, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal, Finland, Sweden and the United Kingdom; the so called EU15) and for the United States, Japan and Canada, the time series cover the period 1980-2004. The paper version of the Supplement provides data only for 1986-2004; those for the years 1980-85 are available in the electronic version of the Supplement.

The sources used are as follows:

– Istat, for Italy. Data are updated to May 2005. In order to avoid breaks in the series between 1991 and 1992 and between 2000 and 2001, this Supplement does not include the revisions relative to the period 1992-2000 made by Istat to national accounts data in December 2005. The revisions, mostly due to the new treatment of Financial Intermediation Services Indirectly Measured (FISIM), affected some items of the general government account and increased GDP. On the contrary, data reported in the Supplement include the upward revisions of GDP made by most of the European countries. This discrepancy affects the comparison between the Italian data and the EU and euro-area averages;

– for European countries, European Commission, DG II Economic and Financial Affairs, General Government Data, October 2004 (data based on the 1979 version of the European System of Accounts – ESA79) and November 2005 (data based on the 1995 version of the European System of Accounts – ESA95); for data on capital taxes based on ESA79, European Commission, March 1999, and Eurostat <http://europa.eu.int/newcronos/>, supplemented by data supplied directly by the Commission;

– OECD, Annual National Accounts 2005, at www.sourceoecd.org (as updated to July 2005) for the items of the economic accounts of the United States, Japan and Canada;

– OECD, Economic Outlook 2005, at www.sourceoecd.org (as updated to June 2005) for the GDP and debt of the United States, Japan and Canada.

Owing to the differences between the methods used by the OECD and the other sources in constructing general government accounts, the single items are strictly comparable only for the European Union countries.

For Italy, the data are based on ESA95 for the entire period 1980-2004.

For the other European countries, data based on ESA95 are available for different periods. For comparability, this Supplement sets the accounting change in the same year for every country. The data for 1980-1994 are based on ESA79 and those from 1995 onwards on ESA95. In the tables the breaks due to the change in the European system of accounts are marked by a boldface vertical line.

Some of the Commission data concerning individual items of the general government accounts have been adjusted. In particular, for those based on ESA79, the Commission disaggregation does not show total capital revenue and total capital

expenditure separately, but gives only the balance, i.e. net capital expenditure. Here, in order to obtain the separate items, the Commission data have been supplemented by other data provided by Eurostat and the Commission itself, and by Bank of Italy estimates where necessary. As a first step, series were constructed for capital revenue. These were then used, together with the Commission series for net capital expenditure, to obtain series for total capital expenditure. The capital revenue and expenditure series were then used to recalculate the series for total revenue and total expenditure, which thus differ from those used by the EU Commission (in particular, total expenditure was not obtained by adding capital expenditure net of capital revenue to current expenditure, as the Commission does, but by adding total capital expenditure). Instead, for the data based on ESA95, total expenditure series (obtained as the sum of current expenditure and capital expenditure) and total revenue series (inclusive of capital revenue) are available from the Commission.

The data on current transfers are obtained from the Commission data as total current expenditure less expenditure for interest and final consumption.

The data on final consumption expenditure are decomposed into collective and individual consumption only for those based on ESA95.

For the individual items of the accounts, averages have been calculated for the euro-area countries (Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland) and for those belonging to the EU15, both including and excluding Italy. The averages were weighted using ratios of the GDP of each country expressed in euros to the total GDP of the relevant group of countries. The values of GDP used are those determined for the Excessive deficit procedure. Where a figure is missing for a country, the average has been calculated omitting that country. Averages have been computed using data (including those for Italy) based on ESA79 until 1994.

The averages of all the countries belonging to the European Union (EU25) are those computed by the European Commission.

For the sake of comparability, the euro area includes Greece in all the years considered.

The data for the European countries do not include the proceeds of the sale of third-generation mobile telephony (UMTS) licences.

The figures for Germany up to and including 1990 refer to the country's western regions.

Because of rounding, the sum of the separate items may sometimes differ from the total shown.

Prepared by Paola Umaldi. The Bank of Italy thanks the Economic and Financial Affairs Directorate General of the European Commission, Eurostat and the OECD for permission to use data they produce.

NOTES TO THE TABLES

The order of the tables in the following notes is based on their code numbers. The notes to each table are set out below, together with references to the "Notes to the classification variables" section where appropriate.

TUEE0100 – NET BORROWING (+)/LENDING (–)

The balance of the consolidated general government accounts (excluding financial transactions). The item corresponds to the net resources the general government makes available to other sectors.

TUEE0110 – PRIMARY NET BORROWING (+)/LENDING (–)

Net borrowing or lending excluding interest payments (see the note to Table TUEE0280).

TUEE0120 – CURRENT ACCOUNT BALANCE

The difference between current expenditure and current revenue (see the notes to Tables TUEE0160 and TUEE0260). A positive balance indicates a deficit, a negative balance a surplus, i.e. public saving.

TUEE0130 – CAPITAL ACCOUNT BALANCE

The difference between capital expenditure and capital revenue.

TUEE0140 – GROSS PUBLIC DEBT

For the EU countries, the definition is that adopted for the Excessive deficit procedure provided for in the Treaty on the European Union (on the basis of the methods specified in Council Regulation 3605/93). The aggregate refers to the total gross debt at the nominal value outstanding at the end of the year of general government, with the exception of those liabilities of which the corresponding financial assets are held by the sector of general government.

For the United States, Japan and Canada, data are processed according to SNA93.

TUEE0150 – TOTAL REVENUE

The sum of current revenue and capital revenue.

TUEE0160 – CURRENT REVENUE

The sum of direct taxes, indirect taxes, social security contributions and other current revenue. Current revenue does not include current transfers from the rest of the world.

TUEE0170 – TAX REVENUE AND SOCIAL SECURITY CONTRIBUTIONS

The sum of direct and indirect taxes, social security contributions and capital taxes (see the notes to Tables TUEE0210, TUEE0220 and TUEE0230).

TUEE0180 – TAX REVENUE AND SOCIAL SECURITY CONTRIBUTIONS, EXCLUDING CAPITAL TAXES

The sum of direct and indirect taxes and social security contributions (see the notes to Tables TUEE0210, TUEE0220 and TUEE0230).

TUEE0190 – TAX REVENUE

The sum of direct, indirect and capital taxes (see the notes to Tables TUEE0210 and TUEE0220).

TUEE0200 – TAX REVENUE, EXCLUDING CAPITAL TAXES

The sum of direct and indirect taxes (see the notes to Tables TUEE0210 and TUEE0220).

TUEE0210 – DIRECT TAXES

Taxes on income and wealth due to general government or the rest of the world.

TUEE0220 – INDIRECT TAXES

Taxes on the production and importation of goods and services due to general government.

TUEE0230 – SOCIAL SECURITY CONTRIBUTIONS

The sum of actual social security contributions paid by workers and employers (directly or through ad hoc agencies) and imputed social security contributions. The figures for Canada do not include imputed social security contributions.

TUEE0240 – TOTAL EXPENDITURE

The sum of current and capital expenditure.

TUEE0250 – TOTAL EXPENDITURE, EXCLUDING INTEREST PAYMENTS

The difference between total expenditure and interest payments (see the note to Table TUEE0280).

TUEE0260 – CURRENT EXPENDITURE

The sum of current transfers, interest payments and final consumption expenditure.

TUEE0270 – CURRENT EXPENDITURE, EXCLUDING INTEREST PAYMENTS

The difference between current expenditure and interest payments (see the note to Table TUEE0280).

TUEE0280 – INTEREST PAYMENTS

Interest payments and other borrowing costs, including the effects of swaps and forward rate agreements.

TUEE0290 – FINAL CONSUMPTION EXPENDITURE

The sum of the expenditure incurred by general government (compensation of employees, purchases of

goods and services and consumption of fixed capital) for the satisfaction of individual or collective needs (see the note to Table TUEE0310).

TUEE0300 – COMPENSATION OF EMPLOYEES

General government payments in cash or in kind to employees, including net earnings and actual and imputed social security contributions.

TUEE0310 – INDIVIDUAL CONSUMPTION; COLLECTIVE CONSUMPTION

Expenditure incurred by general government (compensation of employees, purchases of goods and services and consumption of fixed capital) for the satisfaction of individual needs in the first case and collective needs in the second.

TUEE0320 – CURRENT TRANSFERS

The sum of current transfers to enterprises and households (including private non-profit institutions), net transfers to the rest of the world and other current transfers (e.g. net accident insurance premiums).

TUEE0330 – CURRENT TRANSFERS TO HOUSEHOLDS

Social benefits, including all current transfers to households serving to insure against certain types of risks and necessities; current transfers to private non-profit institutions include all voluntary contributions and membership fees.

TUEE0340 – CURRENT TRANSFERS TO ENTERPRISES

Production and import subsidies that general government or the institutions of the European Union pay to resident units producing goods and services.

TUEE0350 – INVESTMENT

Fixed capital formation, consisting of the value of purchases of (tangible and intangible) durable goods to be utilized for a period longer than one year. The data based on ESA79 include net purchases of land.

TUEE0360 – NET BORROWING (+)/LENDING (–) OF NEW EU MEMBER STATES

See the note to Table TUEE0100.

TUEE0370 – GROSS PUBLIC DEBT OF NEW EU MEMBER STATES

See the note to Table TUEE0140.

TUEE0380 – TOTAL REVENUE OF NEW EU MEMBER STATES

See the note to Table TUEE0150.

TUEE0390 – TOTAL EXPENDITURE OF NEW EU MEMBER STATES

See the note to Table TUEE0240.
