

BANCA D'ITALIA
EUROSISTEMA

Supplements to the Statistical Bulletin

Monetary and Financial Indicators

Public Finance Statistics in the European Union

New series

Volume XVIII Number 77 - 31 December 2008

GENERAL INFORMATION

- I - Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II - Symbols and Conventions:
- the phenomenon in question does not occur;
 - the phenomenon occurs but its value is not known;
 - .. the value is known but is nil or less than half the final digit shown.
- Figures in parentheses in roman type () are provisional, those in parentheses in italics () are estimated.
- III - The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the database in the electronic archive in which information to be released to the public is held. A similar code identifies the different aggregates shown in each table.
- IV - The methodological notes in the last part of the Supplement are identified by electronic codes that refer to the tables and, within each table, to the individual aggregates. Notes that refer to a single observation are also identified by the date of that observation.

SUPPLEMENTS TO THE STATISTICAL BULLETIN

Monetary Financial Institutions: Banks and Money Market Funds (monthly)

The Financial Market (monthly)

The Public Finances (monthly)

Balance of Payments (monthly)

Monetary and Credit Aggregates of the Euro Area: the Italian Components (monthly)

Financial Accounts (quarterly)

Payment System (half yearly)

Public Finance Statistics in the European Union (annual)

Local Government Debt (annual)

Household Wealth in Italy (annual)

Sample Surveys (irregular)

Methodological Notes (irregular)

All the supplements are available on the Bank of Italy's site (www.bancaditalia.it).

Requests for clarifications concerning data contained in this publication can be sent by e-mail to statistiche@bancaditalia.it

CONTENTS

General Information

Table 1 - (TUEE0100) - Net borrowing (+)/lending (-)
Table 2 - (TUEE0110) - Primary net borrowing (+)/lending (-)
Table 3 - (TUEE0120) - Current account balance
Table 4 - (TUEE0130) - Capital account balance
Table 5 - (TUEE0140) - Gross public debt
Table 6 - (TUEE0150) - Total revenue (Regulation EC 1500/2000)
Table 7 - (TUEE0160) - Current revenue (Regulation EC 1500/2000)
Table 8 - (TUEE0170) - Tax revenue and social security contributions
Table 9 - (TUEE0180) - Tax revenue and social security contributions, excluding capital taxes
Table 10 - (TUEE0210) - Direct taxes
Table 11 - (TUEE0220) - Indirect taxes
Table 12 - (TUEE0230) - Social security contributions
Table 13 - (TUEE0240) - Total expenditure (Regulation EC 1500/2000)
Table 14 - (TUEE0250) - Total expenditure, excluding interest payments (Regulation EC 1500/2000)
Table 15 - (TUEE0260) - Current expenditure (Regulation EC 1500/2000)
Table 16 - (TUEE0270) - Current expenditure, excluding interest payments (Regulation EC 1500/2000)
Table 17 - (TUEE0280) - Interest payments
Table 18 - (TUEE0290) - Final consumption expenditure
Table 19 - (TUEE0300) - Compensation of employees
Table 20 - (TUEE0330) - Social benefits other than social transfers in kind
Table 21 - (TUEE0400) - Capital expenditure
Table 22 - (TUEE0350) - Investment

METHODOLOGICAL APPENDIX

GENERAL INDICATIONS

The series refer to the consolidated general government accounts and gross debt of the European Union countries and of the remaining G-7 countries (the United States, Japan and Canada). For the European countries this Supplement refers to the data obtained for the Excessive deficit procedure laid down in the Maastricht Treaty. For these countries total revenue and total expenditure are defined according to Commission Regulation (EC) No. 1500/2000. The data on Italy include - as memorandum items - revenue (total and current) and expenditure (total and current, including and excluding interest payments) defined in accordance with the traditional format for general government accounts. In the transition from the traditional account aggregates to those computed in accordance with Commission Regulation (EC) No. 1500/2000, on the one hand, gross operating surplus and indirect taxes on products paid by general government are excluded from both revenue and expenditure items; on the other hand, proceeds from the sale of goods and services, residual sales and production for own use are added to revenue rather than deducted from expenditure. By construction the adjustments have the same impact on revenue and expenditure, leaving the balances unaltered; they affect "other current revenue" and "other current expenditure", residual items not explicitly mentioned in this Supplement.

The time series cover the period 1980-2007. The paper version of the Supplement provides data only for 1990-2007; those for the years 1980-89 are available in the electronic version of the Supplement.

The sources used are as follows:

- Istat, for Italy;
- for European countries, European Commission, DG II Economic and Financial Affairs, General Government Data, October 2004 (data based on the 1979 version of the European System of Accounts - ESA79) and November 2008 (data based on the 1995 version of the European System of Accounts - ESA95); for data on capital taxes based on ESA79, European Commission, March 1999, and Eurostat, supplemented by data supplied directly by the Commission;
- OECD, Annual National Accounts 2008, at www.sourceoecd.org (as updated to July 2008) for the items of the economic accounts of the United States, Japan and Canada;
- OECD, Economic Outlook 2008, at www.sourceoecd.org (as updated to July 2008) for the GDP and debt of the United States, Japan and Canada.

Owing to the differences between the methods used by the OECD and the other sources in constructing general government accounts, the single items are strictly comparable only for the European Union countries.

For Italy, the data are based on ESA95 for the entire period 1980-2007.

For the other European countries, data based on ESA95 are available for different periods. For comparability, this Supplement sets the accounting change in the same year for every country. The data for 1980-1994 are based on ESA79 and those from 1995 onwards on ESA95. In the tables the breaks due to the change in the European system of accounts are marked by a boldface vertical line.

Some of the Commission data concerning individual items of the general government accounts have been adjusted. In particular, for those based on ESA79, the Commission disaggregation does not show total capital revenue and total capital expenditure separately, but gives only the balance, *i.e.* net capital expenditure. Here, in order to obtain the separate items,

the Commission data have been supplemented by other data provided by Eurostat and the Commission itself, and by Bank of Italy estimates where necessary. As a first step, series were constructed for capital revenue. These were then used, together with the Commission series for net capital expenditure, to obtain series for total capital expenditure. The capital revenue and expenditure series were then used to recalculate the series for total revenue and total expenditure, which thus differ from those used by the EU Commission (in particular, total expenditure was not obtained by adding capital expenditure net of capital revenue to current expenditure, as the Commission does, but by adding total capital expenditure). Instead, for the data based on ESA95, total expenditure series (obtained as the sum of current expenditure and capital expenditure) and total revenue series (inclusive of capital revenue) are available from the Commission.

For the data on revenue (total and current) and expenditure (total and current, including and excluding interest payments) - defined in accordance with Regulation (EC) No. 1500/2000 - figures are based on ESA95. The data cover the period 1980-2007 for Italy, and 1995-2007 for the other European countries.

For the individual items of the accounts, averages have been calculated for the 15 countries belonging to the euro area up to December 2008 (Belgium, Germany, Ireland, Greece, Spain, France, Italy, Cyprus, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia and Finland), both including and excluding Italy. For data based on ESA79, the averages are computed by weighting the ratios to GDP, where the weights are the ratios of the GDP of each country (expressed in euros) to the total GDP of the relevant group of countries. For data based on ESA95, the averages are computed as ratios of the sum, for the relevant countries, of the values of the variable under consideration (expressed in euros) to the sum, for the same countries, of the values of GDP (expressed in euros). In both cases, the values of GDP are those determined for the Excessive Deficit Procedure. Where a figure is missing for a country, the average has been calculated omitting that country. Averages have been computed using data (including those for Italy) based on ESA79 until 1994.

For the sake of comparability, the euro area includes Greece, Cyprus, Malta and Slovenia in all the years considered.

The figures for Germany up to and including 1990 refer to the country's western regions.

The data referring to the EU countries include the proceeds of the sale of UMTS licences. These proceeds are recorded, with a negative sign, among capital expenditure.

Because of rounding, the sum of the separate items may sometimes differ from the total shown.

Prepared by Paola Umaldi. The Bank of Italy thanks the Economic and Financial Affairs Directorate General of the European Commission, Eurostat and the OECD for permission to use data they produce.

NOTES TO THE TABLES

The order of the tables in the following notes is based on their code numbers. The notes to each table are set out below; together with references to the "Notes to the classification variables" section where appropriate.

TUEE0100 - NET BORROWING (+)/LENDING (-)

The balance of the consolidated general government accounts (excluding financial transactions). The item corresponds to the net resources the general government makes available to other sectors.

TUEE0110 - PRIMARY NET BORROWING (+)/LENDING (-)

Net borrowing or lending excluding interest payments (see the note to Table TUEE0280).

TUEE0120 - CURRENT ACCOUNT BALANCE

The difference between current expenditure and current revenue (see the notes to Tables TUEE0160 and TUEE0260). A positive balance indicates a deficit, a negative balance a surplus, *i.e.* public saving.

TUEE0130 - CAPITAL ACCOUNT BALANCE

The difference between capital expenditure and capital revenue.

TUEE0140 - GROSS PUBLIC DEBT

For the EU countries, the definition is that adopted for the Excessive deficit procedure provided for in the Treaty on the European Union (on the basis of the methods specified in Council Regulation No. 3605/93). The aggregate refers to the total gross debt at the nominal value outstanding at the end of the year of general government, with the exception of those liabilities of which the corresponding financial assets are held by the sector of general government.

For the United States, Japan and Canada, data are processed according to SNA93.

TUEE0150 - TOTAL REVENUE (REGULATION EC 1500/2000)

The sum of current revenue and capital revenue. For the EU countries data on total revenue are defined according to Commission Regulation (EC) No. 1500/2000. The data on Italy include - as memorandum items - total revenue defined in accordance with the traditional format for general government accounts. In the transition from the traditional account aggregates to those calculated in accordance with Commission Regulation (EC) No. 1500/2000, gross operating surplus and indirect taxes on products paid by general government are excluded from revenue while proceeds from the sale of goods and services, residual sales and production for own use are added. An adjustment of the same size is made for total expenditure, implying a null impact on net borrowing.

TUEE0160 - CURRENT REVENUE (REGULATION EC 1500/2000)

The sum of direct taxes, indirect taxes, social security contributions and other current revenue. For the EU countries, data on current revenue are defined according to Commission Regulation (EC) No. 1500/2000. The data on Italy include - as memorandum items - current revenue defined in accordance with the traditional format for general government accounts. In the transition from the traditional account aggregates to those calculated in accordance with Commission Regulation (EC) No. 1500/2000, gross operating surplus and indirect taxes on products paid by general government are excluded from current revenue while proceeds from the sale of goods and services, residual sales and production for own use are added. An adjustment of the same size is made for current expenditure, implying a null impact on the current balance.

TUEE0170 - TAX REVENUE AND SOCIAL SECURITY CONTRIBUTIONS

The sum of direct and indirect taxes, social security contributions and capital taxes (see the notes to Tables TUEE0210, TUEE0220 and TUEE0230).

TUEE0180 - TAX REVENUE AND SOCIAL SECURITY CONTRIBUTIONS, EXCLUDING CAPITAL TAXES

The sum of direct and indirect taxes and social security contributions (see the notes to Tables TUEE0210, TUEE0220 and TUEE0230).

TUEE0210 - DIRECT TAXES

Taxes on income and wealth due to general government.

TUEE0220 - INDIRECT TAXES

Taxes on the production and importation of goods and services due to general government.

TUEE0230 - SOCIAL SECURITY CONTRIBUTIONS

The sum of actual social security contributions paid by workers and employers (directly or through *ad hoc* agencies) and imputed social security contributions. The figures for Canada do not include imputed social security contributions.

TUEE0240 - TOTAL EXPENDITURE (REGULATION EC 1500/2000)

The sum of current and capital expenditure (see the notes to tables TUEE0260 and TUEE0400). For the EU countries data on current expenditure are defined according to Commission Regulation (EC) No. 1500/2000. The data on Italy include - as memorandum items - current expenditure defined in accordance with the traditional format for general government accounts. In the transition from the traditional account aggregates to those calculated in accordance with Commission Regulation (EC) No. 1500/2000, current expenditure excludes the sale of goods and services, residual sales and production for own use, which are computed as minor expenses in the traditional accounts, the gross operating surplus and the indirect taxes on products paid by general government. An adjustment of the same size is made for total revenue, implying a null impact on net borrowing.

**TUEE0250 - TOTAL EXPENDITURE, EXCLUDING
INTEREST PAYMENTS
(REGULATION EC 1500/2000)**

The difference between total expenditure and interest payments (see the notes to Tables TUEE0240 and TUEE0280).

**TUEE0260 - CURRENT EXPENDITURE
(REGULATION EC 1500/2000)**

The sum of current transfers, interest payments and final consumption expenditure. For the EU countries, data on current expenditure are defined according to Commission Regulation (EC) No. 1500/2000. The data on Italy include - as memorandum items - current expenditure defined in accordance with the traditional format for general government accounts. In the transition from the traditional account aggregates to those calculated in accordance with Commission Regulation (EC) No. 1500/2000, current expenditure excludes the sale of goods and services, residual sales and production for own use, which are computed as minor expenses in the traditional accounts, the gross operating surplus and the indirect taxes on products paid by general government. An adjustment of the same size is made for current revenue, implying a null impact on the current balance.

**TUEE0270 - CURRENT EXPENDITURE,
EXCLUDING INTEREST PAYMENTS
(REGULATION EC 1500/2000)**

The difference between current expenditure and interest payments (see the notes to Tables TUEE0260 and TUEE0280).

TUEE0280 - INTEREST PAYMENTS

Interest payments and other borrowing costs, including the effects of swaps and forward rate agreements.

**TUEE0290 - FINAL CONSUMPTION
EXPENDITURE**

Expenditure incurred by general government (compensation of employees, purchases of goods and services, social transfers in kind related to expenditure on products supplied to households via market producers and consumption of fixed capital) for the satisfaction of individual or collective needs (see the note to Table TUEE0310).

TUEE0300 - COMPENSATION OF EMPLOYEES

General government payments in cash or in kind to employees, including net earnings and actual and imputed social security contributions.

**TUEE0330 - SOCIAL BENEFITS OTHER THAN
SOCIAL TRANSFERS IN KIND**

Social benefits, including social security and social assistance benefits in cash.

TUEE0350 - INVESTMENT

Gross (with respect to depreciation) fixed capital formation, consisting of the value of purchases less sales of durable goods to be utilized in production processes for a period longer than one year. The data based on ESA79 include net purchases of land.

TUEE0400 - CAPITAL EXPENDITURE

Investment (see the note to table TUEE0350), net acquisition of other non-financial assets and capital transfers. The net acquisition of other non-financial assets includes the proceeds of the sale of UMTS licences (with a negative sign). In EU countries, these proceeds were mainly recorded in 2000.
