Reference period: June 2018

Banks and Financial Institutions: Financing and Bank Funding by Sector and Geographical Area
Notice to users

Banks and Financial Institutions: Financing and Bank Funding by Sector and Geographical Area is one of the three new stand-alone specialized publications into which the *Statistical Bulletin* has been gradually split over the course of 2017. The new report will be published quarterly and contains data on the financial and credit system statistical information split by sector and territory. A particular focus is placed on loans granted by the banking system and Cassa Depositi and Prestiti S.p.A. (CDP) to customers, on banks' financial resources collection and securities and derivatives' markets activity and also on customers' assets under management and bonds issues. Other information concerns non-banking financial intermediaries.

A more detailed description of the content of the report and of the sources used is provided in *Banks and Financial Institutions: Financing and Bank Funding by Sector and Geographical Area* in [Methods and Sources: Methodological Notes](#).

With reference to the *Statistical Bulletin* there are new and rearranged information.

There are 51 (of which 32 tables distributed on the online [Statistical Database](#) only) tables, partly deriving from the *Statistical Bulletin's Section B – Information on Banking and Financial Business*, *Section C – Information on Securities Business* and *Section E2 – Deposit Rates*.

In this new publication the previous Statistical Bulletin's tables headings and codes have been modified and a new terminology has been adopted in order to better show the concepts represented while the contents remain unchanged. The definitions have been made similar to those utilized by other statistical publications which describe same phenomena. For information on the conversion between the old coding of the tables previously published in the Statistical Bulletin and the new coding of the tables in this publication see the [Conversion Chart](#).

To facilitate the correct identification and interpretation of the tables, a map of the concepts illustrated in the report may be downloaded using the following [link](#).

* * *

Starting from the issue of 28 September 2018, following the discontinuation of the analytical survey of interest rates provided for by Bank of Italy [Circular No. 251 of 17 July 2003](#), the information on interest rates payable is derived from the harmonized survey of MFI Interest Rate Statistics (MIR Statistics) established by Bank of Italy [Circular No. 248 of June 26 2002](#). As a result, tables TFR30951 and TFR30960 have been discontinued and new tables TFR30970 and TFR30980 have been introduced, based on partly different concepts and reporting methods: in particular, they feature the publication of the average rate at national level, which refers to the end-of-period stocks of current account, sight and overnight deposits, weighted on the basis of the amounts of the stocks themselves.

Key to symbols and information in the index

The following information is provided for each table (from left to right):

Frequency:

M Monthly
Q Quarterly
H Half-yearly
A Annual

Source:

SR supervisory reports
CCR Central Credit register
SIR Analytical survey of interest rates

Description of the table

Identification code of the table

Page in which the table is reproduced in this report

Notice to readers

I. Symbols:

- the phenomenon does not exist, or it exists and data are collected but no cases were recorded
- the phenomenon exists but no data are available
- .. the data are known but the value is below the minimum considered significant

== the data are confidential

:: the data are not statistically significant

II. The intervals for the classification by size include the lower limit and exclude the upper limit.

III. The source must be cited in any use or dissemination of the information contained in the publications. The Bank of Italy is not responsible for any errors of interpretation or mistaken conclusions drawn on the basis of the information published.

IV. The row and column totals of some tables may not tally with the sum of the entries because they include data that cannot be allocated.

V. A brief description of the methodology, the main statistical sources and the revisions to methodology concerning the data provided in this report is available in '*Banks and Financial Institutions: Financing and Funding by Sector and Geographical Area*', Bank of Italy, Statistics, [Methods and Sources: Methodological Notes](#).

Summary data on loans and deposits

different presentations of loans and deposits included into the report

(stocks in millions of euro)

II quarter 2018

Reporting institutions: **Banks and CDP**

Total (excluding Monetary Financial Institutions)	Resident customers (excluding Monetary Financial Institutions)	of which:	Non-resident customers (excluding Monetary Financial Institutions)
---	--	-----------	---

Loans	1,877,162	1,816,602	787,550	60,521
<i>of which:</i>				
Repos	79,103	74,368	5,243	4,735
Loans (excluding repos)	1,797,982	1,742,193	782,283	55,780
Loans (excluding bad loans and repos)	1,665,552	1,610,379	680,897	55,166
<i>of which:</i>				
Long-term loans(excluding bad loans and repos)	1,147,746
Deposits	1,836,650	1,770,878	350,679	65,716
<i>of which:</i>				
Repos	151,899	139,661	29	12,237
Deposits (excluding repos)	1,558,170	1,527,848	348,759	30,302
Debt securities	93,916	93,916

Note: The data only include transactions with resident and non resident customers. The difference between "loans" and "loans (excluding repos)", apart from repos, is due to bad loans originating from expired securities. The difference between "deposits" and "deposits (excluding repos)", apart from repos, is due to banker's drafts, cash exposures for own securitisations - debt securities (included in deposits according to the Regulation ECB/2008/32 starting from June 2010) and other residual components.

Note: The data refer only to resident customers excluding Monetary and Financial Institutions. The rate of change given here is calculated on the basis of the stocks of the 'loans' aggregate provided in this report. It differs from the simple ratio of the stocks observed in the two periods as it takes account of the following: a) securitized loans and transfers other than securitizations; b) reclassifications; c) value adjustments made during the period; and d) changes in the exchange rate (for further details see the glossary of the report on 'Banks and Financial Institutions: Financing and Funding by Sector and Geographical Area – Methods and Sources: Methodological Notes').

Sardinia	24,478	2,928	1,603	17,941

Note: The data include only transactions with resident customers, excluding Monetary Financial Institutions. The structure of the table is analogous to that of TFR10163, now included only in the BDS, and differs only in respect of the inclusion, in the aggregate 'deposits', of reverse repurchase agreements with customers, banker's drafts, cash exposures for own securitisations - debt securities (included in deposits according to the Regulation ECB/2008/32 starting from June 2010) and other residual components. The amounts related to cash exposures for own securitisations are attributed to "financial companies" and cannot be broken down by territory: consequently national total differs from the sum of the territorial subcomponents.

Notes: This table basically corresponds to the previous table TDB40500. Debt securities are valued ex coupon, the other types of securities are valued at the contract price. For the methods of measuring derivative instruments, see the corresponding item in the glossary of the document 'Methods and Sources: Methodological Notes'. Transactions are considered when they are concluded, even if they have not been settled. The amounts are shown net of commission. The data include transactions with resident and non-resident customers, including Monetary Financial Institutions.

Note: The rate is expressed as an annual percentage and calculated as a weighted average of the rates referring to individual transactions outstanding at the end of the reference period, using the corresponding amounts as weights. Only transactions in euros with resident customers are included, limited to the following sectors: non-financial corporations, producer households, consumer households, non-profit institutions and unclassifiable units. The size classes are expressed in euros and do not include the upper bounds of the intervals.
