

The Financial Market

15 November 2024

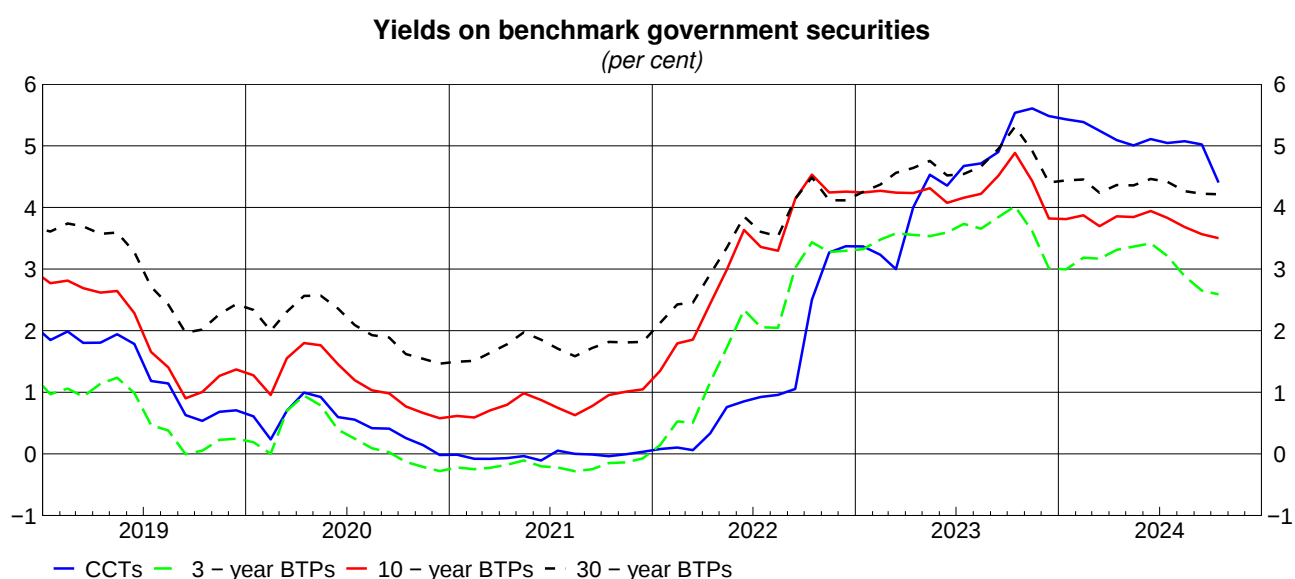

For further information: statistiche@bancaditalia.it
www.bancaditalia.it/statistiche/index.html

Figure 1

In September resident sectors recorded net bond issues of €8.3 billion. General government recorded net bond issues of €3 billion, an outcome to which BTPs and CCTs contributed positively (€3.8 and €1.5 billion, respectively), while BOTs contributed negatively (€2.3 billion). Banks recorded net issues of €1.3 billion. The net issues of the remaining sectors were positive at €4 billion, with other financial intermediaries and non-financial corporations contributing €2.4 and €1.6 billion, respectively.

Figure 2

In October gross yields to maturity on 3-year, 10-year and 30-year benchmark BTPs decreased by 6, 7 and 1 basis points, to 2.59, 3.5 and 4.21 per cent, respectively. The gross yield on benchmark CCTs decreased by 62 basis points to 4.4 per cent.

Reference period: September – October 2024

Notice to readers

Starting from the publication of November 2022, the “[Methods and Sources: Methodological Notes](#)” is printed separately in replacement of the “Notes to the tables” previously reported at the end of the monthly publication. With respect to the previous “Notes to the tables”, the “Methods and Sources: Methodological Notes” provides in a more detailed form the definitions and describes the sources, the methodologies and the revision policies regarding the statistics published in the monthly report “The Financial market”.

From the publication of June 2023, data on securities issued by residents (table [VALM0100](#)) are compiled, starting from the reference date January 2022, following the principles of the new ECB guideline [2022/971](#). Published data are obtained from ECB Securities Issues Statistics ([CSEC](#)) whose source is the Centralized Securities Database (CSDB). Some details published in the table that can not be obtained from the new source continue to be compiled from the national Securities Register managed by the Bank of Italy. For the details see the “[Methods and Sources: Methodological Notes](#)”.

General information

- I Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II Symbols and Conventions:
 - the phenomenon does not occur;
 - the phenomenon occurs but its value is not known;
 - .. the value is known but is nil or less than half the final digit shown.

Figures in parentheses in roman type () are provisional. Those in parentheses in italics () are estimated.
- III The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the electronic database holding the information to be released to the public. A similar code identifies the different aggregates shown in each table.
