

# Banks and money: national data

13 January 2021

For further information: [statistiche@bancaitalia.it](mailto:statistiche@bancaitalia.it)  
[www.bancaditalia.it/statistiche/index.html](http://www.bancaditalia.it/statistiche/index.html)

**Figure 1**

In November lending to the private sector, adjusted to take account of securitizations and other loans transferred and derecognized from banks' balance sheets, grew by 4.6 per cent on an annual basis (against 4.3 in October). Lending to households increased by 2.2 per cent on the same period of 2019 (against 2.1 in October), while that to non-financial corporations increased by 8.1 per cent (against 7.4 per cent in the previous month). Private sector deposits rose by 8.7 per cent on an annual basis (against 10.2 per cent in October); bond funding growth rate decreased by 9.0 per cent (against -8.5 in October). Bad debts fell by 12.0 per cent on an annual basis (-14.1 per cent in the previous month); the variation can be affected by securitization operations.

**Figure 2**

**Figure 3**

The interest rates on loans granted during the reference month to households for house purchase, including ancillary costs, came to 1.63 per cent (1.62 in October), whereas those on new consumer loans came to 7.92 per cent (against 7.76 in the previous month). Interest rates on new lending to non-financial corporations amounted to 1.33 per cent (against 1.29 in the previous month); those on new loans of up to €1 million were equal to 1.86 per cent, while the rates on new loans of above that amount were equal to 0.86 per cent. Rates on the outstanding amount of deposits were equal to 0.33 per cent (against 0.32 in October).

**Figure 4**

Reference period: November 2020

## **Notice to readers**

‘Banks and Money: National Data’ is issued monthly and includes aggregated national data on the banking system, which for the most part follow the Eurosystem’s harmonized definitions.

The publication comprises 40 tables and is divided into three sections.

Section 1. Banking statistics: balance sheets and other information

Section 2. Bank interest rates

Section 3. Single monetary policy statistics: the Italian components

The [Methods and Sources: Methodological Notes](#) is printed separately but forms an integral part of the publication and describes its content.

Since June 2020, own securities issued involved in repo operations with other MFIs are no longer included in the instrument “securities issued” but in the “interbank deposits”.

Since November 2020, due to new clarifications related to Eurosystem harmonized statistics, the value of debts relating to operating leases is included in the item “Other liabilities” instead of in the item “Deposits with agreed maturity”, partially deviating from IFRS 16.

## **General information**

- I Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II Symbols and Conventions:
  - the phenomenon does not occur;
  - .... the phenomenon occurs but its value is not known;
  - .. the value is known but is nil or less than half the final digit shown.
- Figures in parentheses in roman type () are provisional. Those in parentheses in italics () are estimated.
- III The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the electronic database holding the information to be released to the public. A similar code identifies the different aggregates shown in each table.
