

# Banks and money: national data

11 March 2024

For further information: [statistiche@bancaitalia.it](mailto:statistiche@bancaitalia.it)  
[www.bancaditalia.it/statistiche/index.html](http://www.bancaditalia.it/statistiche/index.html)

Figure 1

In January lending to the private sector, adjusted in line with the European System of Central Banks (ESCB) harmonised methodology, decreased by 2.6 per cent on an annual basis (-2.8 in December). Lending to households decreased by 1.3 per cent on an annual basis (as in December), while that to non-financial corporations decreased by 4.0 per cent (-3.6 in the previous month). Private sector deposits decreased by 2.0 per cent on an annual basis (-3.1 in December); bond funding increased by 20.7 per cent on the corresponding period (19.3 in December).

Figure 3

The interest rates on loans granted during the reference month to households for house purchase including ancillary costs (Annual Percentage Rate of Charge, APRC) came to 4.38 per cent (4.82 in December); the share of these loans with initial period of interest rate fixation up to 1 year came to 22 per cent in January (41 per cent in the previous month). The APRC on new consumer loans came to 10.75 per cent (10.16 in the previous month). Interest rates on new lending to non-financial corporations amounted to 5.48 per cent (5.45 in the previous month); those on new loans of up to €1 million were equal to 5.78 per cent, while the rates on new loans of above that amount were equal to 5.30 per cent. Rates on the outstanding amount of deposits were equal to 1.00 per cent (0.96 in December).

Figure 2

Figure 4

Reference period: January 2024

## **Notice to readers**

'Banks and Money: National Data' is issued monthly and includes aggregated national data on the banking system, which for the most part follow the Eurosystem harmonized definitions.

The publication comprises 40 tables and is divided into three sections.

Section 1. Banking statistics: balance sheets and other information

Section 2. Bank interest rates

Section 3. Single monetary policy statistics: the Italian components

The "[Methods and Sources: Methodological Notes](#)" is printed separately but forms an integral part of the publication and describes its content.

Starting from the report published on March 9, 2023 (with reference date of January 2023), the seasonally adjusted series reported in Tables BSID0100 and BSID0200 have been revised with the adoption of a new procedure for estimating the seasonal component which is aligned to the one used by the European Central Bank. With the new estimates the infra-annual dynamics of the time series did not change substantially (for more information, see "Methods and Sources: Methodological Notes").

Starting from January 2023 Croatia joined the Economic and Monetary Union. Its accession to the euro area had an impact on the time series of the publication (for more information, see "Methods and Sources: Methodological Notes").

In order to rationalize the statistical dissemination on credit quality, information on monthly bad loans will be no further released in Tables BSIB0900 (Bad debts by sector of economic activity: residents of Italy), ATECO200 (Bad debts by branch of economic activity: residents of Italy) from the publication of April 2024 onwards; accordingly, also the information on the percentage changes of the monthly bad debts available in the online tables BSIB1000 and BSIB1010 will be discontinued. This innovation relies on the consideration that a more appropriate analysis of the bad debt has to take into account also the total of non-performing loans, which are available on a quarterly basis and are harmonized at European level. For further details, see "[Credit quality. Handbook on the data published by the Bank of Italy](#)".

In the next future the Bank of Italy's statistical dissemination on credit quality will be enriched by the following information: (a) the quarterly data on bad loans available in the statistical report "Banks and Financial Institutions: Credit Conditions and Risk by Sector and Geographical Area" will be integrated with the breakdown related to the branch of economic activity; (b) the information on total non-performing loans net of provisions available in the publication "The Italian economy in brief" will be published on quarterly basis (at present the publication is semi-annual).

## **General information**

- I Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II Symbols and Conventions:
  - the phenomenon does not occur;
  - .... the phenomenon occurs but its value is not known;
  - .. the value is known but is nil or less than half the final digit shown.
- Figures in parentheses in roman type () are provisional. Those in parentheses in italics () are estimated.
- III The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the electronic database holding the information to be released to the public. A similar code identifies the different aggregates shown in each table.
