

Banks and money: national data

13 January 2025

For further information: statistiche@bancaitalia.it
www.bancaditalia.it/statistiche/index.html

Figure 1

In November lending to the private sector, adjusted in line with the European System of Central Banks (ESCB) harmonised methodology, decreased by 1.1 per cent on an annual basis (-1.0 in October). Growth rate of lending to households was equal to 0 on an annual basis (-0.2 in October), while that to non-financial corporations was equal to -3.6 per cent (-3.1 in the previous month). Private sector deposits increased by 4.4 per cent on an annual basis (2.5 per cent in October); bond funding increased by 7.2 per cent on the corresponding period (9.6 in October).

Figure 2

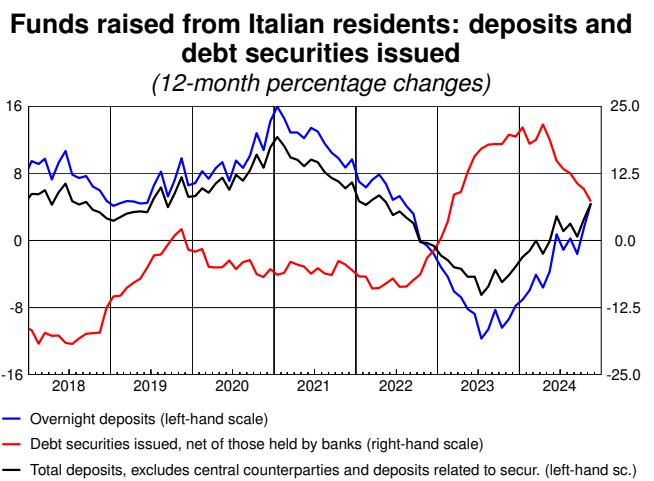

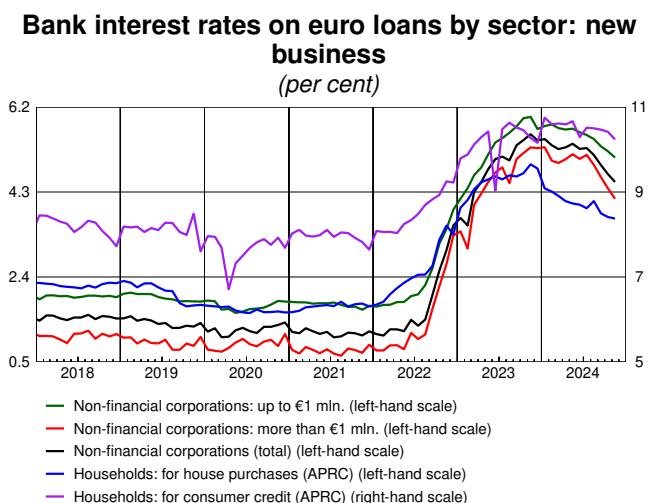

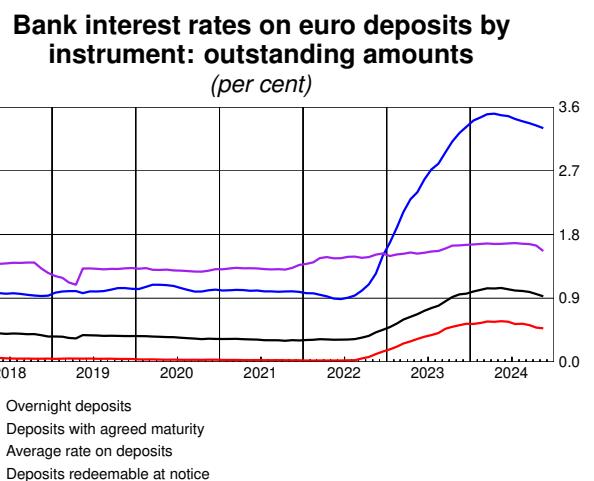

Figure 3

The interest rates on loans granted during the reference month to households for house purchase including ancillary costs (Annual Percentage Rate of Charge, APRC) came to 3.71 per cent (3.74 in October); the share of these loans with initial period of interest rate fixation up to 1 year came to 7 per cent in November (as in the previous month). The APRC on new consumer loans came to 10.24 per cent (10.42 in the previous month). Interest rates on new lending to non-financial corporations amounted to 4.53 per cent (4.70 in the previous month); those on new loans of up to €1 million were equal to 5.07 per cent, while the rates on new loans of above that amount were equal to 4.15 per cent. Rates on the outstanding amount of deposits were equal to 0.93 per cent (0.96 in October).

Figure 4

Notice to readers

‘Banks and Money: National Data’ is issued monthly and includes aggregated national data on the banking system, which for the most part follow the Eurosystem harmonized definitions.

The publication is divided into three sections.

Section 1. Banking statistics: balance sheets and other information

Section 2. Bank interest rates

Section 3. Single monetary policy statistics: the Italian components

The '[Methods and Sources: Methodological Notes](#)' is printed separately but forms an integral part of the publication and describes its content.

Starting from the report published on March 9, 2023 (with reference date of January 2023), the seasonally adjusted series reported in Tables BSID0100 and BSID0200 have been revised with the adoption of a new procedure for estimating the seasonal component which is aligned to the one used by the European Central Bank. With the new estimates the infra-annual dynamics of the time series did not change substantially (for more information, see '[Methods and Sources: Methodological Notes](#)’).

Starting from January 2023 Croatia joined the Economic and Monetary Union. Its accession to the euro area had an impact on the time series of the publication (for more information, see '[Methods and Sources: Methodological Notes](#)’).

From the publication of June 2024 (reference date of April 2024), the information on monthly bad loans is discontinued: Table BSIB0900 (Bad debts by sector of economic activity: residents of Italy); Table ATECO200 (Bad debts by branch of economic activity: residents of Italy); the series on bad debts in Tables CARB0100 (Securitized loans, originated by banks resident in Italy, by type and borrowing sector: total) and CARB0200 (Securitized loans, originated by banks resident in Italy, by type and borrowing sector: loans derecognised from the balance sheets). Accordingly, also the information on the percentage changes of the monthly bad debts available in the online tables BSIB1000 and BSIB1010 are discontinued. This innovation relies on the consideration that a more appropriate analysis of the bad debts has to take into account also the total of non-performing loans, which are available on a quarterly basis and are harmonized at European level. In this regard, it should be noted that, starting with the edition related to the first quarter of 2024, the publication "[Banks and financial institutions: credit conditions and risk by sector and geographical area](#)" is enriched with the new table TRI30269 containing data on credit quality broken down by economic sector of activit. It should also be noted that from the publication of August 2023, the “Non-performing loans” table 28 in the publication “The Italian economy in brief” is updated on a quarterly basis. For further details, see "[Credit quality. Handbook on the data published by the Bank of Italy](#)".

General information

- I Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II Symbols and Conventions:
 - the phenomenon does not occur;
 - the phenomenon occurs but its value is not known;
 - .. the value is known but is nil or less than half the final digit shown.
- Figures in parentheses in roman type () are provisional. Those in parentheses in italics () are estimated.
- III The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the electronic database holding the information to be released to the public. A similar code identifies the different aggregates shown in each table.
