We publish only the questionnaire submitted to industrial firms with 50 or more employees, since it is the widest questionnaire. For the category of firm to which one question is addressed (industrial or service firm with 20-49 employees or with 50 or more employees), please refer to the database of variables. Elementary data are available through the remote system BIRD.

Survey of industrial firms - 2016

Confidentiality notice. - The purpose of this survey is to collect information on the main economic and financial variables in the industrial sector. Your cooperation is important but not compulsory. The information provided by your firm for the various editions of the survey will be used only for statistical purposes. The firms taking part make a significant contribution to the study of the national economy. The data will be processed in such a way as to guarantee the safety and confidentiality of all information.

General information

Bank of Italy codes: (to be entered by BI branch):	
Branch code Firm code	V3, V2
Registered office Type (sub-group)	V14, V564NN
Type (sub-group). See Centrale dei Rischi (National Credit Register), Nuova classificazione della clientela bancaria.	
Date of upload or interview (DD/MM/YYYY)	DATA
Tax Identification Number	CODF
Name of firm	V4
Legal status	V282N
Legend: (1) 1 = SRL; 2 = SPA; 3 = SAPA; 4 = Soc. Coop.; 5 = SAS; 6 = SNC; 7 = Other.	
Branch of activity Istat - Ateco2007	V25307
Branch of activity Istat: See ISTAT. Classificazione delle attività economiche. Metodi e norme 2007.	
Year founded	V284
Is the firm listed?	V400, V609
Does the firm belong to a group?	V521
Group of companies : a group of companies is a collection of parent and subsidiary corporations governed directly or indirectly by a common source control. If the firm belongs to a group of companies, please report the name and the nationality of the group. The list of countries is available at the of the questionnaire.	
Only for firms belonging to a group. Please answer to questions V983 - V565PE only if you answered "yes" to the previous question:	
Is the firm the parent company?(Yes/No)	V983

Workforce

Temporary job contracts signed with employment agency or other forms of collaborations which do not constitute dependent employment have to be considered only where is specified.

Average workforce in the year. Average number of workers (blue-collars, apprentices, white-collars, managers) in the firm during respectively 2015, 2016 and 2017. Please include in the figures the owner or the partners if they work in the firm. The figures are inclusive of the workers with a fixed-term contracts and the subsidized short-time workers (CIG). For the part time and seasonal workers, please multiply the corresponding number of workers by the fraction of the year in which they work. The subsidized short-time workers should be considered wholly in the figure.

Workforce at end of year. Number of the workers in the firm at the end respectively of 2015 and 2016. Please consider the definition of worker mentioned at the previous item.

Fixed-term contracts. Trainee, seasonal, temporary and substitution contracts fall into this category. Please **exclude** from this figure all the workers for whom the company does not pay social security taxes or a salary (stages, free traineeship).

Hirings during the year. The total number of workers hired during the year, including temporary workers, apprenticeships and on-the-job-training positions. Every contract conversion, renewal or extension counts as a hiring. Total hirings must be equal to the sum of fixed-term hirings (including renewals or extensions of fixed-term contracts already in being) and open-ended hirings (including conversions of fixed-term into permanent contracts). Starting in 2015, open-ended hirings are subject to the new provisions on contracts with increasing worker protection as defined in the draft Legislative Decree of 24 December 2014 on permanent employment contracts with increasing worker protection, in implementation of Law 183/2014 (the "Jobs Act"). Hirings do not include workers added on the occasion of corporate mergers or conferrals.

Terminations in the year. Total number of workers whose job contacts were terminated during the year for any reason. For each renewal, extension or change (e.g. a modification of a fixed-term in a open-term contract) has to be considered a corresponding termination. Please exclude from this figure all the workers involved in spin-off.

Please note that the difference between the worker at the end of 2016 and the corresponding at the 2015 has to be equal to the balance between hiring and termination.

Redundancies. Total number of workers whose employment relations was terminated by individual dismissal or collective redundancy.

	2015	2016	
Total hours worked by payroll employees			V18A,V27A
Total hours of Wage Equalization Fund			V20,V29
Total hours of temporary work			V808,V809
Percentage of overtime in total hours worked			V804,V805

Total hours effectively worked. Total hours worked, ordinary and extra hours, by the employees.

Total hours of Wage Equalization Fund. Total working hours covered by the Wage Equalization Fund, in both the ordinary and non-ordinary components and both for blue and white-collars.

Extra time hours (expressed as percentage of the total hours effectively worked). Please report the working hours in excess to the number definite in the contract, even if it are not paid.

Average annual percentage change in prices of tangible assets purchased			V204P,V20	
Average annual percentage change in prices of software, database exploration purchased			V813P,V81	

Gross fixed investment in Italy (in thousands of euro).

Gross fixed investment refers to fixed capital added to the firm's assets during the reference period. Fixed capital consists in tangible goods, software, databases, mineral exploration, and spending for R&D, design and test production that derive from a production process and can be used repeatedly in the production of goods and services for more than one year. R&D investment consists exclusively in systematic activity that generates new knowledge, using dedicated resources; both outsourced and in-house services are included. Costs of software development, instruction and training are excluded. Patents, marketing and advertising are not considered investments. Capital depreciation is included. The addition of fixed capital comprises:

a) Extraordinary maintenance and repairs and the share of regular repairs, invoiced by suppliers, that can be added to capital under the law; b) Production and repairs of own capital goods added to capital.

Investment in tangible goods consists in acquisition of:

a) Real property: new plants and plants under construction, plus spending for renovation of existing plants; excludes grounds and residential **buildings.** Investment in plants under construction is the sum of invoices received during the reference period from companies contracted to execute the project and/or the value of work performed in-house during the period for construction of the plant.

b) **Plant, machinery and equipment:** For items under construction, consists in the sum of invoices received during the reference period from companies contracted to execute the project or the value of work performed during the period if the capital good is constructed in-house. c) **Transport equipment.**

Expenditure on software, databases and mineral exploration. Consists in:

a) software, even if developed in-house; in this case it is valued at estimated base price, or if this is unavailable, at production cost;

b) expenditure for large-scale databases, if used in production for more than one year;

c) mineral exploration; includes test driling, surveying flights, transportation costs, etc.;

d) originals of literary, artistic and entertainment works: films, sound recordings, performances, manuscripts, models, etc.

OCC9

Total expenditure for tangible goods, software, databases, mineral exploration and R&D in 2015 and 2016: in the case of mergers or conferrals, the investment does not include the value of the fixed capital so acquired.

Total expenditure for tangible goods, software, data bases, mineral exploration and R&D in 2017: the money amount your company expects to spend in 2017. If the company carried out a divestiture or corporate conferral as of 31-12-2016 and the firms involved are not reported separately, the forecast for 2017 must also include the plants divested or conferred. If the company plans mergers or conferrals of production assets in 2017, their amount must not be included in investment planned for the year.

Investment in advanced digital technologies

Out of the total investment carried out by your firm in 2016, what was the approximate share of investment

- in advanced digital technologies?
 - 0 No investment in advanced digital technologies
 - 1 Between 0.1% and 5%
 - 2 Between 5.1% and 20%
 - 3 Between 20.1% and 40%
 - 4 More than 40%
 - 5 Do not know, no answer

Advanced digital technologies: these technologies were already outlined in the 'Industry 4.0' plan and include a) mobile and cloud internet services (e.g.: wireless technology, apps, smartphones, tablets, high-speed internet networks, cloud management); b) Artificial Intelligence and Big Data (e.g.: the collection and use of large quantities of data which, also through machine learning algorithms, can assist decision-making; possible applications: distance diagnosis, financial trading algorithms, patent and legal research); c) Internet of Things (e.g.: the use of technologies which, by means of advanced sensors, enable communication between the various devices used in production and business processes, facilitating their integration); d) Industrial robotics using Artificial Intelligence (advanced robotics); e) 3D printing.

Investment incentives

With respect to new investment carried out in 2016 and that planned for 2017, did your firm use, or does it plan to use, the following incentives?

(Please consider only investment begun in the year in question, but not investment already subjected to amortization)

- 0 No, my firm was not / is not aware of the incentives
- 1 No, my firms has used, or is considering using, alternative incentives that cannot be combined with this particular incentive
- 2 No, for reasons other than those given above
- 3 Yes
- 8 Not applicable to my firm

	2016	2017 Projection	
Nuova Sabatini incentives (financial support for the purchase of capital goods)			SAM5,SAM6
Tax credit			SAM7,SAM8
Super-amortization			SAM9,SAM10
Hyper-amortization			SAM11

Nuova Sabatini (or Sabatini-ter) incentives: these incentives were introduced by Decree Law 69/2013 ('Decreto del Fare', or 'Action Decree'), converted with amendments into Law 98/2013. They provide financial support to firms' investments for purchasing or leasing machinery, plant and equipment, and capital goods to be used for production purposes as well as hardware, software and digital technologies.

Tax credit: the 2016 Stability Law provided for a tax credit applying to investment made under Article 1(98-108) or Law 208/2015, to remain in force until 2019, for firms investing in new capital goods in less developed regions.

Super-amortization: the incentives for investing in capital goods included in the 2016 Stability Law and the 2017 Budget Law provide for a 40% increase (for tax purposes only) of the value of goods eligible for amortization and purchased between October 2015 and December 2017. Hyper-amortization: the incentives for investing in advanced technologies in connection with the 'Industry 4.0' plan included in the 2017 Budget Law provide for a 150% increase (for tax purposes only) of the value of goods eligible for amortization and purchased between January and December 2017 and delivered by June 2018.

If the answer entered in the **box regarding tax credit for 2016 (SAM7) in the previous question** was **3 = "Yes"**

What was the amount of investment for which your firm used the tax credit? (Please indicate the amounts in thousands of euros)

SAM12

TEC16

If the answer to any of the boxes SAM5 - SAM11 was 3 = "Yes"			
Without these incentives, your firm:			
 Would have carried out the investment anyway, for the same amount Would have carried out the investment anyway, for a smaller amount Would not have carried out the investment 	2016	2017 Projection	
Nuova Sabatini incentives (financial support for the purchase of capital goods)			SAM13, SAM14
Tax credit			SAM15, SAM16
Super-amortization			SAM17, SAM18
Hyper-amortization			SAM19
Please answer the following questions (v224 - v238) only if you took part in the previous survey :			
If investment expenditure in 2016 has diverged significantly (over 5% above or below) from the estimation given in the previous survey, to what is this due?	ite		
- exclusively to differences between actual and estimated purchase prices of asset	(No/Yes)		V224
- also to differences between actual and estimated quantities purchased	(Yes)		V225
<i>Please say whether the difference in quantities purchased (plus or minus) was due to:</i> (more than one answer possible; tick 'no' otherwise)			
- change in expectations regarding demand	(No/Yes)		V2267
- change in expected production costs: level	(No/Yes)		V228A
- change in expected production costs: uncertainty	(No/Yes)		V228B
- change in regulations (taxes and tax deductions for investment, financial contributions,etc.)	(No/Yes)		V229
- change in delivery times of purchased capital goods imputable to supplier	(No/Yes)		V230
- change in self-financing	(No/Yes)		V232
- change in availability, cost and conditions of financing	(No/Yes)		V234235
- factors relating to the firm's internal organization (for given external conditions)	(No/Yes)		V236

	2016/2015	2017/2016 projection	
Percentage change 2016/2015 in production capacity			V219,V220

Productive capacity is the maximum possible output obtainable with plant running at full capacity.

Actual capacity utilization. Percentage ratio between actual production and maximum possible output.

Percentage change in productive capacity. This depends solely on the purchase and/or sale of plant and machinery and does not include any effects of split-offs, capital contributions, incorporations and sales of business activities. The change projected for 2017 must be computed on the basis of the investment planned for that year (**Gross fixed investment in Italy**) and the plant expected to cease operating during the year.

Please indicate whether during 2016, at the interest rate and collateral terms applied to your firm, you wanted to increase your debt with banks or other financial intermediaries	FI53
If yes to the previous question, please say whether :	1
1. you were willing to accept more stringent loan terms (e.g. higher interest rate or more collateral) in order to increase the amount of borrowing(Yes/No)	FI54
2. in 2016, did you actually apply for new loans from banks or other financial intermediaries	FI55
If yes to question 2 , indicate whether:]
- you received the amounted requested	FI56
- you were granted only part of the amount requested	FI57
- you were given no loan because the financial intermediaries contacted were not willing to grant the loan	FI58
- no loan was obtained for other reasons (e.g., cost or collateral considered to be excessive)	FI59
If no to 2 , indicate why:	1
- we didn't contact banks or other intermediaries because we were convinced they would reject the application	FI60
- other	FI61
In 2016 did your creditors ask you for early repayment of loans granted in the past?	FI62

	2 nd half 2016 by comparison with 1 st half 2016	1 st half 2017 by comparison with 2 nd half 2016 <i>(projection)</i>	
Adjusted for normal seasonal variations, please indicate your demand for bank credit compared with the previous half-year and give your forecast for the next half-year (consider the total amount of bank debt desired, regardless of the amount actually granted by intermediaries)			FI71,FI72
Legend: (1) 1=sharp contraction; 2=moderate contraction; 3=broadly unchanged; 4=moderate increase; 5=shar 8=not applicable.	p increase;		
Please answer the questions FI73 - FI83 only if you indicated a change in demand of bank credit (optio	ons 1,2,4,5 in the p	revious question)	
Which factors are most relevant to explain the trend in your demand for bank credit? (for each half-year, indicate at most two factors as most important) ⁽¹⁾	2 nd half 2016	1 st half 2017 (projection)	
a - change in funding requirement for fixed investment			FI73,FI79
b - change in funding requirement for stocks and working capital			FI74,FI80
c - change in funding requirement for debt restructuring			FI75,FI81
d - change in self-financing capacity			FI76,FI82
e - change in other forms of borrowing (non-bank credit, bond issues, etc.)			FI77,FI83
<i>Legend:</i> (1) 1=unimportant; 2=not very important; 3=fairly important; 4=very important.	1		
How did the firm's overall borrowing conditions change? ⁽¹⁾	2 nd half 2016 by comparison with 1 st half 2016	1 st half 2017 by comparison with 2 nd half 2016 (proj.)

Legend: (1) $0 = not$ at all; $1 = not$ very important; $2 = fairly$ important; $3 = very$ in	nportant.		_
Article 1 of Decree Law 201/2011 (6 December 2011), known as the "Save I introduced an allowance for corporate equity in order among other things to taxes, allowing an annual deduction in the three years from 2011 through reinvested own resources beginning in 2011. The budget law (Stability Law) and 4.75 per cent in 2016. In calculating the amount of own resources reinvest equity with respect to 2010; for natural persons, general partnerships and lim net balance-sheet equity at the end of each year. The 2017 budget package Among other things, it reduced the notional returns on risk capital to 2.3 princremental nature of the allowance to partnerships and sole proprietorships	b help strengthen firms' capital positi 2013, for corporate income tax purp for 2014 increases the allowance to 4 sted, for limited companies the releva- ited partnerships subject to ordinary modified the legislation on the tax er cent in 2017 and 2.7 per cent fror	ion. The allowance reduced corporate poses, of 3 per cent of the amount of per cent in 2014, 4.5 per cent in 2015 ant item is the change in shareholders' accounting rules, the relevant item is allowance for corporate equity (ACE).	

Trade Credit

The list of institutions that form part of the general government sector (Sector S13) is drawn up by Istat according to the European System of Accounts (ESA2010) and published in Gazzetta Ufficiale.

Note that general government does not include publicly owned firms if most of their output is sold at market conditions and the proceeds cover at least 50 per cent of operating costs. Mere control by a public entity, that is, is not a sufficient condition for classifying a firm as belonging to the general government sector.

Trade Credit		Total of Italy		of which: general government	
	2015	2016	2015	2016	
Percentage of sales turnover associated with "collect on delivery" (within 15 days) (%)					C124P,C124 C124PA, C124A
	payment o	turnover assoc ver 15 days, ple referring to th	ase provide the	e following

Hydro-geological risk

Has your firm suffered losses or had to bear the cost of repairs in the last 5 years as a result of floods and landslides?

0 No

1 Yes

RI1

9 Do not know, no answer

Is your firm's property (plants, warehouses, stores, offices) or machinery currently insured against the risk of floods or landslides?

- No, but we plan to get insurance 1
- No, and we do not plan to get insurance 2
- 3 Yes

RI2

Cybersecurity	
Does your firm adopt the following IT security measures? (Please also consider any outsourced activities)	
Use of security <i>software</i> or <i>hardware</i> (e.g. anti-virus programmes, <i>firewalls</i> , etc.)	CY1A
Training staff on the safe use of ICT devices(Yes/No)	CY1B
Complete or partial encryption of data (Yes/No)	CY1C
Analysis and management of vulnerabilities in business systems	CY1D
Encryption: the transformation of data in unintelligible code which can only be decrypted using a special "key".	

Analysis and management of vulnerabilities in business systems: a detailed mapping of business systems and of the corresponding security policy to assess the presence of issues that could expose them to attacks (e.g. hardware configuration errors, credential management systems that are not upto-date or are not restrictive enough, known software vulnerabilities, etc.) and to remove such issues. This item also includes attack simulations.

Over the course of 2016, how much did your firm spend approximately to protect itself against the risk of cyber-attacks? (in thousands of euros) Please consider the costs of all the activities mentioned above and of any other activity intended to prevent attacks, carried out both in-house or through outsourcing (e.g. the compensation of staff in charge of IT security and/or external	
consultants; the purchase of software or hardware security tools or devices; and training costs)	CY2
If it is not possible to provide an exact estimate of the costs incurred to protect your firm from the risk of cyber-attacks, please indicate a range choosing among the following options	CY2BG
1 No costs incurred	

2 Less than €10,000
3 €10,000-€49,999
4 €50,000-€199,999
5 €200,000 or more

Cyber-attack: any action carried out with IT tools and targeting any business system with an ITC component with the objective of disrupting their operation, inflicting physical damage on them, controlling them remotely or in any case compromising their integrity. The assessment also takes account of cases in which the attack targets the firms' computers directly, but also those in which it relies on risky behaviour on the part of employees (e.g. connecting insecure personal devices to a firm's network). As for fraudulent emails, they count as cyber-attacks when malicious attachments or links were opened, causing one of the effects listed above; fraudulent emails that were ignored are not considered.

Was your firm targeted by cyber-attacks in 2016?

Please only consider those attacks that had an impact, even if modest and/or short-lived and/or easily reversible, on the operation of the business systems and/or the integrity and confidentiality of the data stored on them (Yes/No)

CY3

Please answer questions CY4A - CY6 only if you answered Yes to the previous question CY3		
At least one of the attacks caused		
An interruption or a slowdown in everyday work	CY4A	
Additional working hours (either in-house staff or external consultants) to repair the technical damage, communicate with clients and/or vendors and/or shareholders about the attack etc	CY4B	
Theft or destruction of data, including intellectual property	СҮ4С	
Over the course of 2016, what was the approximate damage caused to your firm by these cyber-attacks? (in thousands of euros) Please consider the causes listed above plus any other monetary cost incurred because of the attacks (e.g. damages paid to clients and vendors, legal fees, fines paid to regulatory bodies	CY5	
If it is not possible to provide an exact estimate of the damages caused by the cyber-attacks, please indicate a range choosing among the following options?	CY5B0	
1 No costs incurred 2 Less than €10,000 3 €10,000-€49,999 4 €50,000-€199,999 5 €200,000 or more		
Have you strengthened your security measures following the attacks?	CY6	

Но	w would you rate the effort involved in completing the questionnaire? ⁽¹⁾	\\	V980N
