Table 22 – (TDDE0080) – Deposits (*in lire*)

– (ETDD0080) – Deposits (*in euros*)

Methodological Appendix

NOTICE TO READERS

The first three tables in this supplement refer to “Banks and money market funds” and are based on the reports submitted to the Eurosystem by all resident MFIs except the Bank of Italy. The aggregates are consistent with those adopted by the ECB for the euro area as a whole. Both the monthly and the annual data are end-of-period and contain an estimated component for the period from December 1995 to May 1998. The series refer to the universe of Italian banks.

The remaining tables refer to “banks” and continue to be based on the traditional monthly sample of credit institutions, which at the end of 1999 accounted for 93% of total lending and 92% of total fund-raising.

As of January 1999 the columns “in lire/euros” include amounts in euros and the other euro-area currencies. The series on dealings with the “Central bank” refer to dealings with the Bank of Italy until December 1998 and to those with the central banks of the Eurosystem from January 1999 onwards.

For further details, see the Methodological Appendix.

GENERAL INFORMATION

- I - Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II - Symbols and Conventions:
- the phenomenon in question does not occur;
 - the phenomenon occurs but its value is not known;
 - .. the value is known but is nil or less than half the final digit shown.
- Figures in parentheses in roman type () are provisional, those in parentheses in italics () are estimated.
- III - The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the database in the electronic archive in which information to be released to the public is held. A similar code identifies the different aggregates shown in each table.
- IV - The methodological notes in the last part of the Supplement are identified by electronic codes that refer to the tables and, within each table, to the individual aggregates. Methodological notes that refer to a single observation are also identified by the date of the observation.

This Supplement shows amounts in both lire and euros.

For the period prior to the introduction of the single currency on 1 January 1999, the figures in euros have been obtained by converting the amounts in lire at a rate corresponding to the irrevocable exchange rate of the lira adopted from the beginning of 1999 (1,936.27 lire to the euro). For these figures the indication “values in euros” is thus to be taken as meaning “values in lire converted at the irrevocable exchange rate”.

The publications produced on paper and CD-ROM only show amounts in euros from 1997 onwards, when the lira was linked to the other currencies of the euro area through the Exchange Rate Mechanism. In this period the market value of the lira showed only small fluctuations against the other euro-area currencies; international comparisons made on the basis of the figures expressed in euros should be made with the necessary caution. The wide fluctuations in market exchange rates before 1997 mean that it is not generally advisable to make international comparisons on the basis of values converted into a common currency using a fixed exchange rate.

SUPPLEMENTS TO THE STATISTICAL BULLETIN

Istituzioni finanziarie monetarie: banche e fondi comuni monetari

(Monetary Financial Institutions: Banks and Money Market Funds; monthly) ()*

Mercato finanziario *(Financial Market; monthly)*

Finanza pubblica *(Public Finances; monthly) (*)*

METHODOLOGICAL APPENDIX

GENERAL INDICATIONS

Since the start of the third phase of Economic and Monetary Union, intermediaries subject to statistical reporting requirements in the euro area have been known as Monetary Financial Institutions (MFIs). The category comprises central banks, credit institutions and all other resident financial institutions whose business consists in receiving deposits and/or close substitutes for deposits from persons other than MFIs and in granting credit and/or making investments in securities for their own account. In Italy, in addition to the Bank of Italy and banks, the category includes money market funds, as defined in Annex 1 (Section 1, subsections 5 and 6) of the Regulation issued by the European Central Bank on 1 December 1998 on the consolidated Accounts of the MFI sector (ECB/1998/16).

The first three tables in this supplement refer to “Banks and money market funds” and are based on the reports submitted to the Eurosystem by all resident MFIs except the Bank of Italy. The aggregates are consistent with those adopted by the Eurosystem for the euro area as a whole. Both the monthly and the annual data are end-of-period and contain an estimated component for the period from December 1995 to May 1998. The series refer to the universe of Italian banks. The item “Other sectors” comprises households, enterprises, financial companies and insurance corporations. The item “Other general government” comprises local authorities and social security institutions.

The remaining tables refer to “banks” and continue to be based on the traditional sample of credit institutions, which at the end of 1999 accounted for 93% of total lending and 92% of total fund-raising. The sample does not include two former refinancing institutions, Mediocredito Centrale and Artigiancassa. Unless specified otherwise, the data refer to business with residents of Italy in lire and foreign currency.

As of January 1999, the series in lire and the columns in lire/euros include amounts in euros and the currencies of the other euro-area countries; on the other hand, the foreign currency aggregates do not include amounts in the currencies of the other euro-area countries.

The series, including the parts referring to the period prior to 31 December 1998, have been converted into euros at the rate of 1,936.27 lire per euro.

In order to ensure that the series show a satisfactory degree of continuity, the tables referring to “banks raising short-term funds” take account of the absorption of former special credit institutions and sections prior to 1995 (as a rule from 1987 onwards). As of 1995 the data on “banks raising short-term funds” are affected by the mergers that have taken place. As of January 1999 the columns “in lire/euros” include amounts in euros and the other euro-area currencies. The series on dealings with the “Central bank” refer to dealings with the Bank of Italy until December 1998 and to those with the central banks of the Eurosystem from January 1999 onwards.

In January 1997 the transactions between Banco di Napoli and the non-bank company SGA resulted in sizable changes in the data on lending and bad debts.

Because of rounding, the sum of the separate items may sometimes differ from the total shown. The latest data may also be affected by errors in the reports submitted by banks.

As of June 1998 the statistics have been reorganized in accordance with the new classification of sectors of the European System of National Accounts (ESA95). The changes in the definitions of the sectors of economic activity have given rise to discontinuities in the series. These are especially significant for sole proprietorships and non-financial corporations and less pronounced for financial corporations and social security institutions.

NOTES TO THE TABLES

The order in which the tables are shown is based on their code numbers. The notes to each table are set out below, together with references to the "Notes to the classification variables" section where appropriate.

TDDE0010 – BANKS: MAIN BALANCE SHEET ITEMS (IN LIRE)

On 1.1.1994 the Community Directive on banks' annual accounts came into force, requiring, *inter alia*, repos and reverse repos to be accounted for as receivables and payables. Consequently, the securities portfolio is no longer affected by transactions that provide for the buyer/seller to resell/repurchase the securities in question. In order to avoid a break in the series, securities portfolios have been recalculated for earlier years according to the new accounting method. The assets and liabilities items "Repos" refer to all the transactions of this type with the central bank, banks and customers. Owing to lack of data the amounts for banks raising medium and long-term funds have been estimated up to 1993 on the basis of non-accounting data on securities to be received and delivered in respect of transactions to be settled with residents and non-residents and attributed to residents. In order to reconstruct the series for banks raising short-term funds, repos with non-residents are included under "External assets" and "External liabilities". Rounding may cause discrepancies in totals.

S139805M – BANKS: LOANS TO RESIDENTS IN LIRE/EUROS AND FOREIGN CURRENCY

For the sake of uniformity with the system of prudential returns introduced in 1995, the data on loans for banks raising medium and long-term funds have been recalculated up to December 1994 to include overdue instalments and the principal amounts of instalments due and to exclude the component of bad debts consisting of loans still to mature. Accordingly, overdue instalments and bad debts still to mature have been respectively deducted from and added to the item "Bad debts and overdue and protested bills".

As of December 1992 funds raised from public bodies purely for administration — i.e. used exclusively to grant loans without the assumption of credit risk by the bank concerned — have been reclassified as memorandum items for banks raising medium and long-term funds. In order to avoid breaks in the series involved (public funds, loans and bad debts), the amounts for banks raising medium and long-term funds have been recalculated for

earlier years in accordance with the new accounting policy.

The transactions carried out in January 1997 between Banco di Napoli and the non-bank company SGA resulted in substantial changes in the figures for bad debts and loans.

S248016M – BANKS: PARTICIPATING INTERESTS IN RESIDENT COMPANIES IN LIRE/EUROS AND FOREIGN CURRENCY

The amounts are stated gross of the corresponding provisions for diminution in value.

S285516M – BANKS: BAD DEBTS AT ESTIMATED REALIZABLE VALUE

The estimated realizable value of banks' bad debts is shown net of writedowns. For the years up to 1995 the figures are partly estimated.

S303377M – BANKS: BAD DEBT SAND OVERDUE AND PROTESTED BILLS IN RESPECT OF RESIDENTS IN LIRE/EUROS AND FOREIGN CURRENCY

Includes the portion of the bad debts of banks raising medium and long-term funds consisting of loans still to mature; up to December 1994 these amounts have been deducted from the item "Loans".

The transactions carried out in January 1997 between Banco di Napoli and the non-bank company SGA resulted in substantial changes in the figures for bad debts and loans.

S349276M – BANKS: SUPERVISORY CAPITAL

The definition of this series can be found in Directive 89/299/EEC on the own funds of credit institutions. As of 1997 the figures are only available on a quarterly basis.

S377877M – BANKS: EXTERNAL ASSETS IN LIRE/EUROS AND FOREIGN CURRENCY

The figures refer to aggregates that coincide only in part with those contained in the foreign exchange statistics.

Up to December 1994 includes foreign currency securities issued by residents and held by banks raising medium and long-term funds.

S420744M – BANKS: RESIDENTS' LIRA DEPOSITS

The portion in respect of banks raising medium and long-term funds includes certificates of deposit (regardless of the holder), customer savings accounts and the current accounts of public entities. As of January 1999 residents' deposits in lire include deposits in euros and the currencies of the other euro-area countries.

S535313M – BANKS: BONDS IN ISSUE

As of December 1994 the figures are net of matured bonds to be redeemed.

S731568M – BANKS: OWN FUNDS

The positive components of supervisory capital. As of 1991 this series comprises capital, reserves, provisions for losses and the subordinated liabilities consisting of funds raised by branches in Italy and abroad.

Up to December 1994 the data for banks raising medium and long-term funds were collected once every three months; accordingly the latest available figure was used in the intervening months.

S787896M – BANKS: RESERVES

The free and required reserves of banks raising short-term funds and the deposits with the Bank of Italy of the banks raising medium and long-term funds. The figures are derived in part from the accounts of the Bank of Italy.

S850847M – BANKS: EXTERNAL LIABILITIES

The figures refer to aggregates that coincide only in part with those contained in the foreign exchange statistics.

TDDE0011 – BANKS: LOANS AND SECURITIES (STOCKS IN BILLIONS OF LIRE)

S139805M - BANKS: LOANS TO RESIDENTS IN LIRE/EUROS AND FOREIGN CURRENCY

See the notes to Table TDDE0010.

S283158M - BANKS: LOANS TO NON-RESIDENTS IN LIRE/EUROS AND FOREIGN CURRENCY

Loans to non-residents do not include those granted by Italian banks' foreign branches.

S490966M – BANKS: DIFFERENCE BETWEEN BANKS' SECURITIES PORTFOLIOS AND THEIR HOLDINGS OF GOVERNMENT SECURITIES AT BOOK VALUE

Includes securities issued in lire and foreign currency by banks, the public sector, Enel, state holding companies and the private sector in banks' portfolios.

TDDE0012 – BANKS: DEPOSITS AND BONDS (STOCKS IN BILLIONS OF LIRE)

The data refer to transactions in lire, except for the item "Non-residents' deposits", which include transactions in foreign currency, and the item "Residents' foreign currency deposits". The average data are obtained as the average of daily data.

The figures for average deposits before 1995 have been obtained by estimating the average values for banks raising medium and long-term funds as moving averages of end-of-period data.

For the average deposits of banks raising short-term funds, see the note to the series S747643M (Table TDDE0080).

As of June 1998 the breakdown of bonds by fixed and variable rate is available only on a quarterly basis.

S420744M - BANKS: RESIDENTS' LIRA DEPOSITS

The portion in respect of banks raising medium and long-term funds includes certificates of deposit (regardless of the holder), customer savings accounts and the current accounts of public entities. As of January 1999 residents' deposits in lire include deposits in euros and the currencies of the other euro-area countries.

S540520M – BANKS: SHORT-TERM CERTIFICATES OF DEPOSIT

Certificates of deposit in lire with an original duration of less than 18 months.

S580095M – BANKS: RESIDENTS' FOREIGN CURRENCY DEPOSITS

Up to December 1994 the item refers only to deposits held with banks raising short-term funds.

S645316M – BANKS: NON-RESIDENTS' DEPOSITS IN LIRE/EUROS AND FOREIGN CURRENCY

Up to December 1994 the item refers only to deposits held with banks raising short-term funds.

TDDE0013 – BANKS: SPECIAL CREDIT TRANSACTIONS (STOCKS IN BILLIONS OF LIRE)

For the definition of special credit transactions see Chapter VI of the 1993 Banking Law (Legislative Decree 385 of 1993). All banks can provide such financing. The values of some of the aggregates differ from those published previously. The definition does not coincide exactly with that of the financing provided in the past by the former special credit institutions. The items referring to agricultural credit include fishing credit.

S373508Q – BANKS: REAL-ESTATE LOANS TO RESIDENTS IN LIRE/EUROS AND FOREIGN CURRENCY

Includes building credit.

S407053 – BANKS: SUBSIDIZED LOANS TO RESIDENTS IN LIRE/EUROS AND FOREIGN CURRENCY

Loans at interest rates below those prevailing in the market as a result of laws providing for contributions towards interest payments or the use of state or regional funds.

TDDE0014 – BANKS: REPOS (STOCKS IN BILLIONS OF LIRE)

Detail of repos and reverse repos with residents and non-residents involving securities denominated in lire or foreign currency. The transactions are accounted for as payables and receivables. The breakdown by counterparty is available for banks raising short-term funds as of 1994. The series on the transactions of special credit sections and institutions are estimated for 1994 and partly estimated until June 1996 owing to the delay with which some former special credit institutions adopted the new system of prudential returns.

TDDE0021 – BANKS: LOANS BY SECTOR OF ECONOMIC ACTIVITY (STOCKS IN BILLIONS OF LIRE)

As of the November 1996 Supplement the data are obtained from banks' prudential returns. The definitions

of the sectors are the same as those used by Istat and based on the European System of National Accounts (ESA). Compared with the Central Credit Register's sectoral classification used in this Supplement until October 1995, the sector "Non-financial corporations and quasi-corporations" includes the following subgroups: associations of insurance corporations (included among insurance corporations by the Central Credit Register); associations of credit institutions (included in the credit system by the Central Credit Register); holding corporations, state holding corporations, regional and local authority holding corporations and associations of financial corporations (included in corporations and holding quasi-corporations by the Central Credit Register); the entities belonging to the enlarged public sector outside general government (included in private social institutions by the Central Credit Register). Loans to general government include those to the State Railways to be redeemed by the Treasury. Until December 1994 the data for the special credit institutions are partly estimated owing to the differences between their statistical reports and those of the banks raising short-term funds. In particular, the monthly values are estimated on the basis of special credit institutions' three-month returns by sector and branch.

TDDE0031 – BANKS: LOANS BY BRANCH OF ECONOMIC ACTIVITY (STOCKS IN BILLIONS OF LIRE)

As of the November 1996 Supplement the data are obtained from banks' prudential returns. Loans by branch include bad debts. The figures refer to the 23 branches into which loans to "Non-financial corporations and quasi-corporations" and "Sole proprietorships" are divided. Until December 1994 the data are estimated to overcome the differences between the statistical reporting systems of the banks raising short-term funds and those raising medium and long-term funds. In particular, the reports of the former special credit institutions by sector and branch were prepared every three months with the breakdown by branch available only for the aggregates "Non-financial corporations and quasi-corporations" and "Sole proprietorships". Loans to municipal companies, reported as being to the Treasury but really pertaining to municipalities, are included in the "energy products" branch using an estimation procedure. At the bottom of the table information is provided permitting the figures to be reconciled with those in Table 8 (loans by sector of economic activity). Specifically: total loans to the different branches (a); loans, including bad debts, to "Non-financial corporations and quasi-corporations" not

included in the breakdown by branch of economic activity owing to the difference between the ESA and Central Credit Register classifications (b); total loans including bad debts (c) = (a) + (b); and bad debts in connection with loans (d). Subtracting bad debts from the aggregate (c) gives loans by sector, as also shown in Table 8.

TDDE0032 – BANKS: BAD DEBTS BY SECTOR OF ECONOMIC ACTIVITY (STOCKS IN BILLIONS OF LIRE)

The definitions of the sectors are the same as those used in Table TDDE/ETDD0021.

TDDE0033 – BANKS: BAD DEBTS BY BRANCH OF ECONOMIC ACTIVITY (STOCKS IN BILLIONS OF LIRE)

The definitions of the branches are the same as those used in Table TDDE/ETDD0031.

TDDE0034 – BANKS: PARTICIPATING INTERESTS (STOCKS IN BILLIONS OF LIRE)

The detail of participating interests excludes the related provisions for diminution in value. The data prior to July 1996 are partly estimated for the participating interests in non-bank companies.

TDDE0035 – BANKS: SECURITIES HELD FOR SAFEKEEPING BY SECTOR OF ECONOMIC ACTIVITY (STOCKS IN BILLIONS OF LIRE)

The definitions of the sectors are the same as those used in Table TDDE/ETDD0021.

TDDE0036 – BANKS: SECURITIES HELD FOR SAFEKEEPING BY INSTRUMENT (STOCKS IN BILLIONS OF LIRE)

There are statistical discontinuities in the “Asset management” series, especially after January 1997.

TDDE0040 – BANKS RAISING SHORT-TERM FUNDS: MAIN BALANCE SHEET ITEMS (STOCKS IN BILLIONS OF LIRE)

The series include the data on the former special credit sections and institutions absorbed by banks. On 1.1.1994 the Community Directive on banks’ annual accounts came into force, requiring, *inter alia*, repos and reverse repos to be accounted for as receivables and payables. Consequently, the securities portfolio is no longer affected by transactions that provide for the buyer/seller to resell/repurchase the securities in question. Repos with non-residents are included under “External assets” and “External liabilities”.

In order to avoid a break in the series, securities portfolios, external assets and liabilities and interbank positions have been recalculated for earlier years according to the new accounting methods. The assets and liabilities items “Repos” refer to all the transactions of this type with the Bank of Italy, banks and customers. Rounding may cause discrepancies in totals.

In January 1997 the transactions between Banco di Napoli and the non-bank company SGA resulted in sizable changes in the data on lending and bad debts. As of January 1999 the deposits of residents in lire include amounts in euros and the currencies of the other euro-area countries.

S192967M – BANKS RAISING SHORT-TERM FUNDS: EXTERNAL ASSETS IN LIRE/EUROS AND FOREIGN CURRENCY

The data concerning external transactions (effected with non-residents) refer to aggregates that coincide only in part with those contained in the foreign exchange statistics.

S435891M – BANKS RAISING SHORT-TERM FUNDS: BONDS IN ISSUE

As of December 1994 the figures are net of matured bonds to be redeemed.

S663325M – BANKS RAISING SHORT-TERM FUNDS: OWN FUNDS

The positive components of supervisory capital. As of 1991 this series comprises capital, reserves, provisions for losses and the subordinated liabilities consisting of funds raised by branches in Italy and abroad.

S939909M – BANKS RAISING SHORT-TERM FUNDS:
EXTERNAL LIABILITIES IN LIRE/EUROS AND FOREIGN
CURRENCY

The data concerning external transactions (effected with non-residents) refer to aggregates that coincide only in part with those contained in the foreign exchange statistics.

**TDDE0060 – BANKS RAISING SHORT-TERM
FUNDS: LOANS AND GUARANTEES
GRANTED (STOCKS IN BILLIONS
OF LIRE)**

The series include the data on the former special credit sections and institutions absorbed by banks. This component includes overdue instalments and the principal amounts of instalments due and excludes the component of bad debts consisting of loans still to mature.

In January 1997 the transactions between Banco di Napoli and the non-bank company SGA resulted in sizable changes in the data on lending and bad debts.

S789469M – BANKS RAISING SHORT-TERM
FUNDS: OTHER FINANCIAL ASSETS (BANKER'S
ACCEPTANCES, AND COMMERCIAL PAPER)

Banker's acceptances under Law 388/1978 and comparable tradable financial instruments; commercial paper and comparable tradable financial instruments.

**TDDE0070 – BANKS RAISING SHORT-TERM
FUNDS: SECURITIES PORTFOLIO
(STOCKS IN BILLIONS OF LIRE)**

The series include the data on the former special credit sections and institutions absorbed by banks.

On 1.1.1994 the Community Directive on banks' annual accounts came into force, requiring, *inter alia*, repos and reverse repos to be accounted for as receivables and payables. Consequently, the securities portfolio is no longer affected by transactions that provide for the buyer/seller to resell/repurchase the securities in question. Repos with non-residents are included under "External assets" and "External liabilities".

Community law provides for certificates of deposit that are traded to be included in banks' securities portfolios instead of among their interbank positions as in

the past. In order to avoid a break in the series, securities portfolios have been recalculated for earlier years according to the new accounting method.

Discrepancies between total securities and the component items are due not only to rounding but also to the method used to ensure the continuity of the series following the adoption of the system of prudential returns by former special credit sections and institutions absorbed by banks raising short-term funds.

S308916M – BANKS RAISING SHORT-TERM FUNDS:
PORTFOLIO OF BONDS AND COUPONS ISSUED BY
PRIVATE SECTOR RESIDENTS IN LIRE/EUROS AND
FOREIGN CURRENCY

Bonds of industrial companies and local authority companies and coupons acquired following coupon stripping operations.

**TDDE0080 – BANKS RAISING SHORT-TERM
FUNDS: DEPOSITS (STOCKS IN
BILLIONS OF LIRE)**

The series include the data on the former special credit sections and institutions absorbed by banks. The figures in this table refer to transactions in lire, except for the aggregate "Deposits of non-residents", which includes transactions in foreign currency. The series have been reconstructed by treating CDs issued by special credit sections and institutions absorbed by banks as "unredeemable" CDs with a maturity of more than 18 months issued by banks raising short-term funds. For such banks, CDs reported as being "unredeemable" from January 1995 onwards have been treated as CDs issued under the Ministerial Decree of 28.12.1982 and subsequent measures, which, *inter alia*, required the inclusion of a clause specifying that the CDs in question were not redeemable before maturity. As of January 1995 total CDs includes all the instruments of this type, classified according to the rules in force. Consequently, as of that date savings certificates are included among CDs instead of under savings deposits.

S204028M – BANKS RAISING SHORT-TERM FUNDS:
RESIDENTS' CURRENT ACCOUNT DEPOSITS IN LIRE

In order to ensure continuity, the series has been reconstructed including the current accounts of public entities with special credit sections and institutions absorbed by banks.

**S359736M – BANKS RAISING SHORT-TERM FUNDS:
RESIDENTS' SAVINGS DEPOSITS IN LIRE**

In order to ensure continuity, the series has been reconstructed including customers' savings deposits with special credit sections and institutions absorbed by banks; this component has been attributed a maturity of more than 18 months.

**S563847M – BANKS RAISING SHORT-TERM FUNDS:
CERTIFICATES OF DEPOSIT**

In order to ensure continuity, the series has been reconstructed including certificates of deposit issued by special credit sections and institutions absorbed by banks; this component has been attributed a maturity of more than 18 months. "Unredeemable" CDs have been treated as CDs issued under the Ministerial Decree of 28.12.1982 and subsequent measures.

**S747643M – BANKS RAISING SHORT-TERM FUNDS:
AVERAGE DEPOSITS**

Deposits in lire of resident non-bank customers.

Until August 1990 the data are the result of an estimate based on the monthly centred average of data contained in 10-day reports. Subsequently, the data have been obtained from supervisory returns for the aggregate excluding the borrowing of special credit sections and institutions absorbed by banks. Until December 1994 the average value of the latter's transactions has been estimated on the basis of end-of-period data.

**TDFE0080 – BANKS: BANK INTEREST RATES:
CENTRAL BANK FINANCE AND
INTERBANK TRANSACTIONS
(PERCENTAGES)**

The data are drawn from the Interbank Deposit Market (MID), except for those on interbank rates on freely available accounts, which are taken from 10-day reports.

**S058923M – INTERBANK DEPOSIT MARKET:
AVERAGE RATE ON 1-MONTH DEPOSITS**

Arithmetic mean of the weighted average rates on daily turnover in the Interbank Deposit Market.

**S301764M – INTERBANK DEPOSIT MARKET:
AVERAGE RATE ON OVERNIGHT DEPOSITS**

Arithmetic mean of the weighted average rates on daily turnover in the Interbank Deposit Market.

**S463758M – INTERBANK DEPOSIT MARKET:
AVERAGE RATE ON 6-MONTH DEPOSITS**

Arithmetic mean of the weighted average rates on daily turnover in the Interbank Deposit Market.

**S536728M – INTERBANK DEPOSIT MARKET:
AVERAGE RATE ON 12-MONTH DEPOSITS**

Arithmetic mean of the weighted average rates on daily turnover in the Interbank Deposit Market.

**S700980M – INTERBANK DEPOSIT MARKET:
AVERAGE RATE ON 3-MONTH DEPOSITS**

Arithmetic mean of the weighted average rates on daily turnover in the Interbank Deposit Market.

**S805365M – MAXIMUM INTERBANK BORROWING
RATE**

Monthly centred average of the 10-day reports on the maximum rate applied to freely available deposits in lire of resident banks with debit balances of more than 1 billion lire.

**S896742M – MONTHLY ARITHMETIC MEAN OF
MARGINAL RATES ON REPOS WITH THE BANK OF
ITALY (PERCENTAGES)**

Monthly arithmetic mean of marginal rates on repos with the Bank of Italy.

**TDFE0081 – BANKS: BANK INTEREST RATES:
FUNDS RAISED FROM RESIDENT
CUSTOMERS IN LIRE
(PERCENTAGES)**

The data are drawn from the 10-day reports introduced in January 1995. The sample is made up of the banks submitting reports at each reference date. The figures for the period up to 1995 are partially estimated on the basis of the data drawn from the earlier 10-day reports.

**S545583M – AVERAGE CURRENT ACCOUNT
DEPOSIT RATE**

Monthly centred moving average of the corresponding rates obtained from 10-day reports.

**S617835M – BANKS: AVERAGE RATE ON ISSUES OF
FIXED RATE BONDS**

Average rate applied to lira bonds issued by banks in the reference month; data for the period up to 1995 are not available.

S866842M – RATE APPLIED TO THE TENTH DECILE OF THE DISTRIBUTION OF FREELY AVAILABLE DEPOSITS IN LIRE

Monthly centred moving average of the corresponding rates obtained from 10-day reports. The distribution of deposits is ranked in order of rising rates.

S880150M – AVERAGE RATE ON LIRA DEPOSITS

Monthly centred moving average of the corresponding rates obtained from 10-day reports. The average of the rates applied to lira current account deposits, savings deposits and certificates of deposit.

S893506M – AVERAGE RATE ON LIRA CERTIFICATES OF DEPOSIT

Monthly centred moving average of the corresponding rates obtained from 10-day reports; data for the period up to 1995 are not available.

S902455M – AVERAGE RATE ON LIRA CERTIFICATES OF DEPOSIT WITH A MATURITY UP TO 6 MONTHS ISSUED IN THE REFERENCE MONTH

Monthly centred moving average of the corresponding rates obtained from 10-day reports; data for the period up to 1995 are not available.

S913020M – AVERAGE RATE ON FIXED RATE LIRA CERTIFICATES OF DEPOSIT WITH A MATURITY OF BETWEEN 16 AND 24 MONTHS ISSUED IN THE REFERENCE MONTH

Monthly centred moving average of the corresponding rates obtained from 10-day reports; data for the period up to 1995 are not available.

TDFE0082 – BANKS: BANK INTEREST RATES: LOANS TO RESIDENT CUSTOMERS IN LIRE (PERCENTAGES)

The data are drawn from the 10-day reports introduced in January 1995. The sample is made up of the banks submitting reports at each reference date. The figures for the period up to 1995 are partially estimated on the basis of the data drawn from the earlier 10-day reports.

S237279M – “PRIME RATE” ON LOANS TO PRIME CUSTOMERS SURVEYED BY THE ITALIAN BANKERS’ ASSOCIATION (ABI)

Rate surveyed by the Italian Bankers’ Association for prime customers’ current account overdrafts. End-of-period values.

S632844M – AVERAGE RATE ON MEDIUM AND LONG-TERM LOANS TO RESIDENT CUSTOMERS

Monthly centred moving average of the corresponding rates obtained from 10-day reports; data for the period up to 1995 are not available.

S642993M – AVERAGE RATE ON DISBURSEMENTS OF MEDIUM AND LONG-TERM LOANS TO RESIDENT ENTERPRISES

Monthly centred moving average of the corresponding rates obtained from 10-day reports; data for the period up to 1995 are not available.

S659556M – AVERAGE RATE ON DISBURSEMENTS OF MEDIUM AND LONG-TERM LOANS TO CONSUMER HOUSEHOLDS

Monthly centred moving average of the corresponding rates obtained from 10-day reports; data for the period up to 1995 are not available.

S826516M – AVERAGE RATE ON CURRENT ACCOUNT OVERDRAFTS

Monthly centred moving average of the corresponding rates obtained from 10-day reports.

S922038M – RATE APPLIED TO THE FIRST DECILE OF THE DISTRIBUTION OF SHORT-TERM LOANS IN LIRE

Monthly centred moving average of the corresponding rates obtained from 10-day reports. The distribution of loans is ranked in order of rising rates.

S939796M – AVERAGE RATE ON SHORT-TERM LOANS TO RESIDENTS IN LIRE

Monthly centred moving average of the corresponding rates obtained from 10-day reports. The data refer to an aggregate that includes bill portfolio discounts and current account advances.

TDME0010 – BANKS AND MONEY MARKET FUNDS. MAIN BALANCE SHEET ITEMS – ASSETS

The series have been reconstructed for the period from December 1995 to May 1998 on the basis of prudential returns and foreign exchange reports. As of June 1998 banks have reported the data according to the harmonized definitions adopted by the ESCB for the euro area. “Loans” include reverse repos and bad debts.

TDME0020 – BANKS AND MONEY MARKET FUNDS. MAIN BALANCE SHEET ITEMS – LIABILITIES
