

**BANCA D'ITALIA**

**Supplements to the Statistical Bulletin**  
**Monetary and Financial Indicators**

**Monetary Financial Institutions:**  
**Banks and Money Market Funds**

New series

**Volume XVI Number 44 - 2 August 2006**

## NOTICE TO READERS

This supplement has 21 tables.

Tables 1-5 contain ESCB harmonized balance sheet statistics. The data refer to banks and money market funds, which, together with the Bank of Italy, constitute the Monetary Financial Institutions (MFIs) resident in Italy, the institutions subject to the statistical reporting requirements of the European Central Bank. Up to December 2002 the activity of money-market funds affected only the two columns of Tables 1 and 3 concerning the net sales of fund units/shares and MFIs' total holdings of securities including money-market funds' portfolios. As of January 2003, the activity of money-market funds is included in all the balance sheet items. As a consequence of this change and of an increase in the population of funds, some of the series in Tables 1, 3 and 4 show discontinuities between December 2002 and January 2003. For more details, see the *General Indications* in the *Methodological appendix*.

The remaining series of Tables 1-5 refer exclusively to banks. Tables 6-13 show the balance sheet items whose definitions do not always coincide with those of the ESCB harmonized statistics. Their publication ensures continuity with the statistics traditionally published by the Bank of Italy. The notes to the tables explain the differences between the Bank of Italy and ESCB harmonized definitions.

Tables 14 and 15 contain information on the securities held for custody by banks.

Table 16 contains the series on banks' income statements and other information on the structure of the Italian banking system.

Tables 17-20 show harmonized interest rates on bank loans and deposits (see the *Methodological appendix*). Table 21 contains the interest rates on interbank transactions and other information on bank interest rates.

## GENERAL INFORMATION

- I - Unless indicated otherwise, figures have been computed by the Bank of Italy.
- II - Symbols and Conventions:
- the phenomenon in question does not occur;
  - .... the phenomenon occurs but its value is not known;
  - .. the value is known but is nil or less than half the final digit shown.
- Figures in parentheses in roman type () are provisional, those in parentheses in italics () are estimated.
- III - The tables are identified both by a number and by an alphanumeric code that defines the content of the table in the database in the electronic archive in which information to be released to the public is held. A similar code identifies the different aggregates shown in each table.
- IV - The methodological notes in the last part of the Supplement are identified by electronic codes that refer to the tables and, within each table, to the individual aggregates. Notes that refer to a single observation are also identified by the date of that observation.

## SUPPLEMENTS TO THE STATISTICAL BULLETIN

**Monetary Financial Institutions: Banks and Money Market Funds** (monthly)

**The Financial Market** (monthly)

**The Public Finances** (monthly)

**Balance of Payments** (monthly)

**Monetary and Credit Aggregates of the Euro Area: the Italian Components** (monthly)

**Financial Accounts** (quarterly)

**Payment System** (half yearly)

**Public Finance Statistics in the European Union** (annual)

**Local Government Debt** (annual)

**Sample Surveys** (irregular)

**Methodological Notes** (irregular)

*All the supplements are available on the Bank of Italy's site ([www.bancaditalia.it](http://www.bancaditalia.it)).*

*Requests for clarifications concerning data contained in this publication can be sent by e-mail to [statistiche@bancaditalia.it](mailto:statistiche@bancaditalia.it)*

## METHODOLOGICAL APPENDIX

### GENERAL INDICATIONS

ESCB HARMONIZED STATISTICS. Tables 1–5 refer to Monetary Financial Institutions (MFIs), the intermediaries that have been required to submit reports to the ECB since the start of the third phase of Monetary Union. The category comprises central banks, credit institutions and all other resident financial institutions whose business consists in receiving deposits and/or close substitutes for deposits from persons other than MFIs and in granting credit and/or making investments in securities for their own account. A list of all the MFIs in the Monetary Union is posted on the website of the ECB and updated monthly.

In Italy, in addition to the Bank of Italy and banks, MFIs include money–market funds. The accounts of the Bank of Italy are published in another supplement to the Statistical Bulletin: “Monetary and Credit Aggregates of the Euro Area: the Italian Components”. For the definition of money–market funds, see, as of 1 January 2003, Annex 1 of the Regulation issued by the European Central Bank on 22 November 2001 (ECB/2001/13) and, previously, Annex 1 of the Regulation issued by the European Central Bank on 1 December 1998 (ECB/1998/16). In brief, money–market funds are now defined as those collective investment undertakings of which the units are, in terms of liquidity, close substitutes for deposits and/or which primarily invest in money–market instruments and/or other transferable debt instruments with a residual maturity up to and including one year. This definition is likely to result in frequent and significant changes in the population of money–market funds, with repercussions on the series concerned.

As of January 2003, the ESCB harmonized statistics reflect not only a substantial increase in the population of money–market funds but also the availability of more detailed information on their assets and liabilities. Previously, the activity of money–market funds affected only the two columns of Tables 1, 3 and 4 concerning the net sales of fund units/shares and MFIs’ total holdings of government securities, including money–market funds’ portfolios. The remaining series of Tables 1–5 referred exclusively to banks. As of January 2003, the activity of money–market funds is included in all the balance sheet items. For the reasons given above, some of the series in Tables 1, 3 and 4 show discontinuities between December 2002 and January 2003; for further details concerning the items affected by these breaks, see the Note metodologiche to Table aD8 in the Appendice of the Relazione Annuale sul 2003.

As of December 2002 – in accordance with the 15th update of the manual on the compilation of accounting supervisory reports (“Manuale per la compilazione della Matrice dei Conti”, 31 July 2002) – some forms of financing typically used for consumption, such as personal loans, loans secured by the pledge of one fifth of the borrower’s salary and part of the use of credit cards, have been classified by some banks under “consumer credit” rather than “other loans”. Consequently, there are discontinuities in the “consumer credit” and “other loans” series in Table 5. For more details, see the above–mentioned manual (especially note 5 to Section E6 and the notes to item 2457 on the classification of consumer credit by economic purpose). As in the harmonized statistics of the Eurosystem, the definition of households comprises also non–profit institutions.

Items in euros and euro–area currencies include estimates of amounts in euro–area currencies before 1 January 1999, the date on which the euro was officially introduced. As of January 2001 other euro–area countries include Greece and other euro–area currencies include the drachma.

As of January 2004 the repo series of money–market funds are observed with reference to the settlement date of transactions instead of the date on which they were concluded.

For further details, see the document “L’armonizzazione delle statistiche bancarie europee e i riflessi sull’Italia”, Banca d’Italia, Supplementi al Bollettino Statistico – Note metodologiche e informazioni statistiche, February 2000.

OTHER STATISTICAL INFORMATION. Tables 6–16 (electronic code prefix: TDUE) contain statistics for the universe of Italian banks, based on the definitions traditionally used by the Bank of Italy. The reconstruction of the main items of all the series has been completed for the period from 1990 onwards; some of the aggregates are partially estimated for the period up to May 1998 since it was only in June 1998 that the entire universe of Italian banks was subjected to uniform reporting

requirements. The notes to the tables explain the differences between the data shown in Tables 6–15 and the ESCB harmonized statistics.

Up to December 1998, the columns in lire/euros in Tables 6–15 include only amounts in lire; from January 1999, they include amounts in euros and euro–area currencies. The discontinuities are small. Up to December 1998, the series regarding dealings with the “Central bank” refer to dealings with the Bank of Italy; from January 1999, they refer to dealings with the central banks of the Eurosystem.

More detailed methodological information on the aggregates of Table 19 can be found in the “Note metodologiche” section in the Appendix to the Bank of Italy’s *Relazione Annuale*.

**BANK INTEREST RATES.** The tables in this section (electronic code prefix: TDFE) report interest rates. As of January 2003 the information contained in Tables 17–20 is obtained from a monthly sample survey in accordance with ECB Regulation 2001/18. At the end of 2005, the sample consisted of 121 banks. At each reference date the sample reflects any mergers and spinoffs that have occurred. The interest rates reported are on outstanding amounts and new business for the main forms of fund–raising and lending in euros from/to households and non–financial corporations resident in the euro area. Households include producer households and non–profit institutions serving households. For more details on the method of collecting the new data and the sample selection criteria, see “The harmonization of European statistics on bank interest rates and the methodology adopted by Italy”, Bank of Italy, Supplements to the Statistical Bulletin – Methodological notes and statistical information, October 2003 and Bank of Italy Circular no. 248 of 26 June 2002. The average interest rates shown in Tables 17–20 are calculated as weighted averages of the interest rates on the various instruments, classified by maturity and size; the weights are the amounts of the corresponding categories. In the case of new business, the turnover of deposits and loans, which is higher for instruments with shorter maturities, may influence the result. Table 21 contains rates on short–term loans and bonds issued, taken from the new ten–day reports, and rates on interbank transactions; the source of these data is the Interbank Deposit Market (MID).

With the exception of interest rates, all the data are drawn from banks’ automated prudential returns. The balance sheet statistics reported in the Supplement are monthly and yearly end–of–period data. Those for the latest month are provisional. Rounding may cause discrepancies in totals.

The policy adopted in this publication for the revision of data basically follows the rules laid down in the ECB Guideline for monetary and banking statistics (available at [www.ecb.int](http://www.ecb.int)). The figures for the latest month shown are considered to be provisional and, in line with the terminology of the ESCB, revisions in the following month are deemed to be “ordinary”. Any subsequent revisions are considered “extraordinary”; they are normally incorporated as soon as they are received from the reporting institutions. In most cases revisions have a negligible impact on the aggregates; where this is not the case, the reasons for making them are given in this Appendix. Estimated data are subject to revision.

For the interest rates that are particularly significant in the Italian banking system, the harmonized series have also been estimated for past periods, generally back to 1995. The methodology is described in Italian in “La stima di serie storiche dei tassi di interesse bancari armonizzati”, Banca d’Italia, Supplementi al Bollettino Statistico – Note metodologiche, febbraio 2006. Harmonized interest rate series, including estimates, can be downloaded from the statistical database of the Bank of Italy (available at: <http://bip.bancaditalia.it/4972unix/homebipeng.htm>; Tables TDFE0083, TDFE0084, TDFE0085, TDFE0086).

## NOTES TO THE TABLES

*The order of the tables in the following notes is based on their code numbers. The notes to each table are set out below, together with references to the “Notes to the classification variables” section where appropriate.*

### **TDFE0080 – OTHER BANK AND INTERBANK INTEREST RATES**

The first part of Table 21 (TDFE0080) contains the interest rates on bank bonds and the minimum rate on

short–term loans; the information is obtained from new 10–day reports introduced in March 2004, which are submitted by a subset of the sample of banks that submit data for the harmonized interest rate statistics. The new 10–day reports differ in some other respects from the

previous ones, which ended with the data for February 2004. In particular, the maturity threshold for classifying instruments as short term has been lowered from 18 months to 12 months.

The first column shows the minimum rate on the outstanding amounts of short-term loans to non-financial corporations resident in Italy. The second column shows the average rate on bank bonds (outstanding amounts) and the third column the average rate on bank bonds (new business) with an initial period of fixation of more than one year. The initial period of fixation is taken to mean the time during which no contractual provision is made for a change in the interest rate. The break between the old and the new 10-day series is not pronounced for the minimum rate on loans and the average rate on the outstanding amount of bonds but it is sharp for the average rate on new business in bonds. Accordingly, the table does not contain these data for the period prior to March 2004.

The second part of Table 1 shows the interbank rates obtaining on the MID Interbank Deposit Market for overnight, 1-month, 3-month, 6-month and 12-month deposits. They are calculated as the arithmetic mean of the weighted average rates on daily turnover on the Interbank Deposit Market. The last column shows the interest rate on Regular Eurosystem reverse operations conducted by the Bank of Italy by means of tenders. At its meeting on 8 June 2000 the Governing Council of the ECB decided that, starting from the operation to be settled on 28 June 2000, the main refinancing operations of the Eurosystem would be conducted as variable rate tenders with a minimum bid rate.

**S099013M – BANKS: MINIMUM RATE ON SHORT-TERM LOANS TO NON-FINANCIAL CORPORATIONS – OUTSTANDING AMOUNTS**

Monthly centred moving average of the rates obtained from ten-day reports, with reference to the rate applied to the first decile of the distribution of loans ranked in order of rising rates.

**S328906M – BANKS: AVERAGE RATE ON BONDS – OUTSTANDING AMOUNTS**

Average rate on bonds denominated in euros issued by banks outstanding at the end of the reference period.

**S367355M – INTERBANK DEPOSIT MARKET: AVERAGE RATE ON "OVERNIGHT" DEPOSITS INCLUDING "LARGE DEAL" TRANSACTIONS**

The calculation of this rate takes into account transactions in the "large-deal" segment (more than 100 million euros).

**S492173M – BANKS: AVERAGE RATE ON BONDS WITH INITIAL PERIOD OF FIXATION OF MORE THAN ONE YEAR – NEW BUSINESS**

Average rate on bonds denominated in euros issued by banks in the reference period.

**TDFE0083 – BANK INTEREST RATES ON EURO DEPOSITS: OUTSTANDING AMOUNTS AND NEW BUSINESS**

Table 17 (TDFE0083) contains the harmonized interest rates on the main forms of bank fund-raising in euros from households and non-financial corporations in the euro area. "New business" consists of deposit contracts concluded in the reporting period or for which previously established terms or conditions have been renegotiated. The rates on outstanding amounts are weighted using the balances on the accounts at the end of the reference month; the rates on new business in the month are weighted using the relevant amounts.

For some of the interest rate series included in this table, estimated historical series are in general available back to 1995. Detailed information is given in the "General Indications" Section of the Methodological Appendix to the Supplement.

**S525995M – INTEREST RATE ON OVERNIGHT DEPOSITS – HOUSEHOLDS AND NON-FINANCIAL CORPORATIONS**

Weighted average of the interest rates on the overnight deposits of households and non-financial corporations.

**S634356M – INTEREST RATE ON DEPOSITS WITH AGREED MATURITY – NEW BUSINESS – HOUSEHOLDS**

Weighted average of the interest rates on new deposits with agreed maturity of households and non-financial corporations (all maturities).

**S993623M – INTEREST RATE ON DEPOSITS – OUTSTANDING AMOUNTS – NON-FINANCIAL CORPORATIONS AND HOUSEHOLDS**

Weighted average interest rate on outstanding amounts of deposits and repos of households and non-financial corporations.

**TDFE0084 – BANK INTEREST RATES ON EURO LOANS: OUTSTANDING AMOUNTS**

Table 18 (TDFE0084) contains the harmonized interest rates on the outstanding amounts of euro bank loans to households and non-financial corporations

resident in the euro area. The rates are weighted using the account balances at the end of the reference month. The disaggregation by maturity refers to the original duration of each loan. The rates include those on supported loans, for which the total interest rate must be reported, regardless of how much the customer pays. By contrast, the rates on bad debts and restructured loans are excluded. The item "Consumer credit and other loans" comprises: overdrafts, repos, advances against invoices, other secured loans.

For some of the interest rate series included in this table, estimated historical series are in general available back to 1995. Detailed information is given in the "General Indications" Section of the Methodological Appendix to the Supplement.

**S681824M – INTEREST RATE ON LOANS TO HOUSEHOLDS – OUTSTANDING AMOUNTS**

Weighted average of the interest rates on the outstanding amounts of loans to households – including overdrafts – at the end of the reference period.

**S711581M – INTEREST RATE ON LOANS FOR HOUSE PURCHASES – OUTSTANDING AMOUNTS**

Weighted average of the interest rates on loans for house purchases (all maturities).

**S761710M – INTEREST RATE ON CONSUMER CREDIT AND OTHER LOANS (NOT FOR HOUSE PURCHASES) UP TO 1 YEAR – OUTSTANDING AMOUNTS – HOUSEHOLDS**

Includes all overdrafts.

**S805742M – INTEREST RATE ON BANK OVERDRAFT – HOUSEHOLDS**

The following are included with overdrafts: advances against bills, other credit instruments, uncleared documents and factoring advances.

**S826547M – INTEREST RATE ON LOANS TO NON-FINANCIAL CORPORATION – OUTSTANDING AMOUNTS**

Weighted average of the interest rates on the month-end outstanding amounts of loans – including overdrafts – to non-financial corporations.

**S845839M – INTEREST RATE ON LOANS TO NON-FINANCIAL CORPORATION UP TO 1 YEAR – OUTSTANDING AMOUNTS**

Includes all overdrafts.

**S878156M – INTEREST RATE ON BANK OVERDRAFT – NON-FINANCIAL CORPORATIONS**

The following are included with overdrafts: advances against bills, other credit instruments, uncleared documents and factoring advances.

**S889541M – INTEREST RATE ON LOANS UP TO 1 YEAR TO HOUSEHOLDS AND NON-FIN. CORPORATIONS – OUTSTANDING AMOUNTS**

Weighted average of the interest rates on the month-end outstanding amounts of loans – including overdrafts – to households and non-financial corporations.

**TDFE0085 – BANK INTEREST RATES ON EURO LOANS TO HOUSEHOLDS: NEW BUSINESS**

Table 19 (TDFE0085) contains the harmonized interest rates on new euro bank loans to households resident in the euro area. The rates are weighted using the amounts disbursed. "New business" consists of loan contracts concluded in the reporting period or for which previously established terms and conditions have been renegotiated. Overdrafts are not included in new business for the purpose of reporting harmonized interest rates. The disaggregation by maturity refers to the initial period of rate fixation. The rates include those on supported loans, for which the total interest rate must be reported, regardless of how much the customer pays. By contrast, the rates on bad debts and restructured loans are excluded. Loans for "other purposes" comprise: repos, advances against invoices and other secured loans. The Annual Percentage Rate of Charge (APRC) includes the accessory expenses (administrative, application processing, insurance) provided for in Directive 87/102/EEC.

For some of the interest rate series included in this table, estimated historical series are in general available back to 1995. Detailed information is given in the "General Indications" Section of the Methodological Appendix to the Supplement.

**S921397M – INTEREST RATE FOR HOUSE PURCHASES – NEW BUSINESS**

Weighted average of the interest rates on new loans for house purchases (other than overdrafts) for all maturities.

**S984694M – INTEREST RATE ON CONSUMER CREDIT – NEW BUSINESS**

Weighted average of the interest rates on new consumer credit (other than overdrafts) for all maturities.

### **TDFE0086 – BANK INTEREST RATES ON EURO LOANS TO NON FINANCIAL CORPORATIONS: NEW BUSINESS**

Table 20 (TDFE0086) contains the harmonized interest rates on new euro bank loans to non-financial corporations resident in the euro area. The rates are weighted using the amounts disbursed. "New business" consists of loan contracts concluded in the reporting period or for which previously established terms and conditions have been renegotiated. Overdrafts are not included in new business for the purpose of reporting harmonized interest rates. The disaggregation by maturity refers to the initial period of rate fixation. The rates include those on supported loans, for which the total interest rate must be reported, regardless of how much the customer pays. By contrast, the rates on bad debts and restructured loans are excluded. Loans for "other purposes" comprise: repos, advances against invoices and other secured loans. The division of loans by size refers to the amount of each individual transaction and not to the bank's total exposure to the firm in question.

For some of the interest rate series included in this table, estimated historical series are in general available back to 1995. Detailed information is given in the "General Indications" Section of the Methodological Appendix to the Supplement.

#### **S127845M – INTEREST RATE FOR LOANS OTHER THAN BANK OVERDRAFTS – NON-FINANCIAL CORPORATIONS – NEW BUSINESS**

Weighted average of the interest rates on new loans (other than overdrafts) to non-financial corporations, for all amounts and for all maturities.

#### **S148553M – INTEREST RATE FOR LOANS OTHER THAN BANK OVERDRAFTS UP TO AN AMOUNT OF EUR 1 MILLION NON-FINANCIAL CORPORATIONS – NEW BUSINESS**

Weighted average of the interest rates on new loans (other than overdrafts) up to an amount of EUR 1 million to non-financial corporations, for all maturities.

#### **S212623M – INTEREST RATE FOR LOANS OTHER THAN BANK OVERDRAFTS OVER AN AMOUNT OF EUR 1 MILLION – NON FINANCIAL CORPORATIONS – NEW BUSINESS**

Weighted average of the interest rates on new loans (other than overdrafts) over an amount of EUR 1 million to non-financial corporations, for all maturities.

### **TDME0010 – BANKS AND MONEY MARKET FUNDS: BALANCE SHEET – ASSETS**

Table 1 (TDME0010, TDME0020) refers to banks and money market funds and summarizes their main balance sheet assets and liabilities. As regards MFIs' balance sheet assets, in addition to total assets, Table 1 shows six items: cash, loans, holdings of securities other than shares, shares and other equity, fixed assets and remaining assets. It also contains memorandum items showing the claims on the Eurosystem, taken to mean the central banks of the euro-area countries and the ECB. The items loans, holdings of securities other than shares and shares and other equity are shown separately for residents of Italy, residents of other euro-area countries and the rest of the world. Residents of Italy and residents of other euro-area countries are divided in turn according to the sector they belong to: MFIs, general government and other sectors (mainly households and enterprises). The item remaining assets includes options premiums and variation margins for positions in financial derivatives. The latter are normally considered to be off-balance-sheet items and not part of the assets of the banking system.

#### **LOANS**

Performing loans, bad debts and repo assets.

#### **HOLDINGS OF SECURITIES OTHER THAN SHARES**

Securities of listed companies not held as financial fixed assets are valued at their market value at the reference date; all other securities are valued at book value. The item includes unlisted bonds and bonds to be held to maturity and money market fund shares/units in banks' portfolios.

#### **SHARES AND OTHER EQUITY**

Other equity is included gross of the corresponding provisions for diminution in value.

#### **S480216M – BANKING SYSTEM: CLAIMS ON THE EUROSISTEM**

Comprises the claims of the banking system on the ECB and the central banks of the euro-area countries and holdings of securities other than shares issued by the same.

#### **S753273M – BANKING SYSTEM: FIXED ASSETS**

Comprises land and buildings, other tangible fixed assets, fixed assets for financial leasing, and intangible fixed assets.

**TDME0020 – BANKS AND MONEY MARKET FUNDS: BALANCE SHEET – LIABILITIES**

As regards MFIs' balance sheet liabilities, in addition to total liabilities, Table 1 shows five items: deposits, money market fund shares/units, debt securities issued, capital and reserves, and remaining liabilities. It also contains memorandum items showing the deposits of the Eurosystem, taken to mean the central banks of the euro-area countries and the ECB. Deposits are shown separately for residents of Italy, residents of other euro-area countries and the rest of the world. Residents of Italy and residents of other euro-area countries are divided in turn according to the sector they belong to: "MFIs", "central government" and other general government – other sectors". Other general government comprises local government and social security funds. MFIs and central government are not part of the money-holding sector. The item remaining liabilities includes options premiums and variation margins for positions in financial derivatives. The latter are normally considered to be off-balance-sheet items and not part of the assets of the banking system.

**DEPOSITS**

Current accounts, deposits with agreed maturity, deposits redeemable at notice and repo liabilities. Certificates of deposit include those issued as subordinated liabilities.

**S303540M – OTHER MFIS: DEBT SECURITIES ISSUED**

Banks' debt securities are stated at par and include those issued as subordinated liabilities. From December 2000 the series includes reverse convertibles.

**S434899M – OTHER MFIS: CAPITAL AND RESERVES**

Paid-up share capital, reserves, the provision for general banking risks and the balance of prior year profits and losses carried forward.

**TDME0030 – BANKS AND MONEY MARKET FUNDS: CLAIMS IN EUROS AND OTHER EURO-AREA CURRENCIES – LOANS**

Table 3 (TDME0030, TDME0040) refers to the claims of banks and money market funds. Claims are defined as loans and holdings of securities other than shares. The total

of loans and holdings of securities other than shares in Table 3 differs from that in Table 1 (TDME0010–20) because it refers only to the part denominated in euros and euro-area currencies. Separate series are published for residents of Italy, residents of other euro-area countries and the rest of the world. Counterparties are divided in turn into the following sectors: MFIs, general government and other sectors (mainly households and enterprises).

**LOANS**

Performing loans, bad debts and repo assets.

**TDME0040 – BANKS AND MONEY MARKET FUNDS: CLAIMS IN EUROS AND OTHER EURO-AREA CURRENCIES – SECURITIES OTHER THAN SHARES**

Securities of listed companies not held as financial fixed assets are valued at their market value at the reference date; all other securities are valued at carrying value. The item includes bonds not listed on regulated markets and bonds to be held to maturity.

**TDME0050 – BANKS AND MONEY MARKET FUNDS: FUNDS RAISED FROM OTHER GENERAL GOVERNMENT AND OTHER SECTORS, IN EUROS AND EURO-AREA CURRENCIES**

Table 2 (TDME0050) gives details of the funds raised by banks in euros and euro-area currencies. Other general government comprises local government and social security funds, while other sectors consists mainly of households and enterprises. The difference between Table 2 and Table 1 (TDME0010–20) is that the latter shows funds raised in all currencies. Deposits are shown separately for residents of Italy, residents of other euro-area countries and the rest of the world. Those of residents of Italy and residents of other euro-area countries are divided in turn according to their maturity as follows: overnight deposits, deposits with agreed maturity (subdivided by maturity into up to 2 years and more than 2 years), deposits redeemable at notice and repos. Until the start of the third phase of Monetary Union, repo liabilities were not included in the definition of deposits. Debt securities issued are stated at par and divided by maturity into up to 2 years and more than 2 years. Banks have produced ESCB harmonized statistics since June 1998. The figures for the period from December 1995 to May

1998 are partially estimated, on the basis of the data contained in banks' automated prudential returns and foreign exchange reports. The figures for the latest month are provisional.

#### OVERNIGHT DEPOSITS

The item includes banker's drafts but not current account time deposits.

#### DEPOSITS WITH AGREED MATURITY

Deposits with agreed maturity include certificates of deposit, current account time deposits and savings account time deposits.

#### DEPOSITS REDEEMABLE AT NOTICE

Deposits redeemable at notice consist of ordinary savings account deposits.

#### DEBT SECURITIES ISSUED

Banks' debt securities issued including those issued as subordinated liabilities. As of December 2000, reverse convertibles are included in the item with maturity up to two years.

### **TDME0060 – BANKS AND MONEY MARKET FUNDS: LOANS BY SECTOR OF ECONOMIC ACTIVITY (EXCLUDING MFIS)**

Table 4 (TDME0060) disaggregates loans according to the sector of activity of borrowers, excluding MFIs. The sectors considered are: general government (subdivided into central government, local government and social security funds), other financial institutions, insurance corporations and pension funds, non-financial corporations and households. Non-profit institutions are included in households. Loans comprise performing loans, bad debts and repo assets. The series are divided into those for loans to residents of the euro area and those to residents of Italy. The difference between loans in Table 4 and Table 3 (TDME0030–40) is that the latter refers only to loans denominated in euros and euro-area currencies.

The statistics are based on the new sectoral definitions of the European System of Accounts (ESA95). For the definition of the institutional sectors, see the "Glossario" in the Appendix to the *Relazione Annuale*.

### **TDME0070 – BANKS AND MONEY MARKET FUNDS: LOANS TO HOUSEHOLDS AND NON-FINANCIAL CORPORATIONS BY TYPE AND MATURITY**

In Table 5 (TDME0070) bank loans to households are divided according to their purpose and maturity, while those to non-financial corporations are divided only according to their maturity. Total loans to households and non-financial corporations are the same as those shown in Table 4 (TDME0060). Non-profit institutions are included in households. Loans to households are divided into three types: consumer credit, lending for house purchase and other lending, each of which is subdivided into three maturities: up to 1 year, from 1 to 5 years and over 5 years. The data on loans to households by type submitted by some banks in 2002 showed discontinuities owing to the reclassification of certain items. Loans comprise performing loans, bad debts and repo assets. The series are divided into those for loans to residents of the euro area and those to residents of Italy. The sectoral definitions are the same as those used in Table 4.

### **TDUE0080 – BANKS: DEPOSITS, BONDS AND OTHER LIABILITIES**

Table 6 (TDUE0080) contains information on bank deposits, bonds issued by banks and other liabilities (external liabilities, subordinated liabilities and supervisory capital). Deposits are divided according to the classification of technical forms traditionally adopted in Italy: current account deposits, savings deposits, short-term certificates of deposit (up to 18 months) and medium and long-term certificates of deposit (more than 18 months). Current account deposits include current account time deposits, which in Table 2 (TDME0050, ESCB harmonized statistics) are included among deposits with agreed maturity. In Table 6 savings deposits include savings account time deposits, whereas in Table 2 ordinary savings account deposits coincide with deposits redeemable at notice and savings account time deposits are included among deposits with agreed maturity. In order to facilitate comparison with the ESCB harmonized statistics, repoliabilities, which were not included in the definition of deposits until the start of the third phase of Monetary Union, are shown as a separate item. Moreover, the item total deposits is shown both including and excluding repos. Up to December 1998, deposits in lire/euros include only amounts in lire; from January 1999, they include amounts in euros and euro-area currencies. Vice versa, up to December 1998, deposits in non-euro currencies include amounts in euro-area currencies other than the lira. The discontinuities are small. In contrast with the ESCB

harmonized definitions, certificates of deposit and bonds do not include subordinated liabilities. Bonds are divided between fixed and variable rate issues.

#### BONDS

Bonds are shown at book value and include matured bonds to be redeemed. They do not include subordinated liabilities. As of June 1998 the details on variable rate bonds are only available on a quarterly basis. The bonds issued by Isveimer, which has been wound up, are included until May 1998.

#### S19771M – UNIVERSE OF BANKS: CERTIFICATES OF DEPOSIT

The item comprises all securities of this kind. Until Supplement no. 11 of 19 February 2001, certificates of deposit and savings certificates reported as being "redeemable early" (except for those issued pursuant to a Ministerial Decree of 28 December 1982) were included among savings deposits up to December 1994.

#### S31512M – UNIVERSE OF BANKS: SUPERVISORY CAPITAL

For the definition of this series, see the "Note Metodologiche" in the Appendix to the Relazione Annuale. As of 1997 the figures are only available on a quarterly basis.

#### S318112M – UNIVERSE OF BANKS: CURRENT ACCOUNT DEPOSITS OF RESIDENTS

This item includes current account time deposits but not banker's drafts.

#### S324642M – UNIVERSE OF BANKS: EXTERNAL FUNDING

The data refer to aggregates that coincide only in part with those of the foreign exchange statistics.

#### S340751M – UNIVERSE OF BANKS: DEPOSITS OF NON RESIDENTS OF ITALY

Until December 1994, this item refers only to deposits with banks raising short-term funds.

#### S340987M – UNIVERSE OF BANKS: DEPOSITS IN NON-EURO CURRENCIES OF RESIDENTS

Until 1995, this item refers only to deposits with banks raising short-term funds, since the returns submitted by the former "special credit institutions" did not contain the relevant data.

#### S354531M – UNIVERSE OF BANKS: SAVINGS DEPOSITS OF RESIDENTS

This item comprises both savings account time deposits and ordinary savings account deposits.

#### S548888M – UNIVERSE OF BANKS: REPOS WITH RESIDENT CUSTOMERS

The data refer to repos in all currencies.

#### S946525M – UNIVERSE OF BANKS: SUBORDINATED LIABILITIES

This item comprises all the different technical forms in which subordinated liabilities are issued.

#### TDUE0090 – BANKS: REPOS BY TYPE OF COUNTERPARTY (EXCLUDING CENTRAL BANKS)

Table 7 (TDUE0090) refers to banks' repo transactions with other banks and customers. Counterparties are divided according to whether they are residents of Italy.

On 1.1.1994 the Community Directive on banks' annual accounts came into force, requiring, inter alia, repos and reverse repos to be accounted for as receivables and payables. Consequently, the securities portfolio is no longer affected by transactions that provide for the buyer/seller to resell/repurchase the securities in question. In order to avoid a break in the series, securities portfolios have been recalculated for earlier years according to the new accounting method. The asset and liabilities items "Repos" refer to all the transactions of this type with the central bank, banks and customers. Owing to lack of data the amounts for banks raising medium and long-term funds have been estimated up to 1993 on the basis of non-accounting data on securities to be received and delivered in respect of transactions to be settled with residents and non-residents and attributed to residents. In order to reconstruct the series for banks raising short-term funds, repos with non-residents are included under "External assets" and "External liabilities". Rounding may cause discrepancies in the totals.

The breakdown by counterparty is available for banks raising short-term funds as of 1994. The series on the transactions of special credit institutions and institutions are estimated for 1994 and partly estimated until June 1996 owing to the delay with which some former special credit institutions adopted the new system of prudential returns.

#### S548888M – UNIVERSE OF BANKS: REPOS WITH RESIDENT CUSTOMERS

The data refer to repos in all currencies.

**TDUE0100 – BANKS: LOANS, SECURITIES AND OTHER ASSETS**

Table 8 (TDUE0100) disaggregates bank's portfolios of performing loans and securities and other asset items.

**S169214M – UNIVERSE OF BANKS: LOANS TO NON-RESIDENTS**

Loans to non-residents do not include those granted by Italian banks' foreign branches.

**S268215M – UNIVERSE OF BANKS: EXTERNAL ASSETS**

The figures refer to aggregates that coincide only in part with those contained in the foreign exchange statistics. Up to December 1994 includes foreign currency securities issued by residents and held by banks raising medium and long-term funds.

**S734065M – UNIVERSE OF BANKS: HOLDINGS OF OTHER SECURITIES**

Securities (including unlisted securities and securities to be held to maturity) issued by banks, the public sector, Enel, state holding companies and the private sector in banks' portfolios.

**S781588M – UNIVERSE OF BANKS: BAD DEBTS AND UNPAID AND PROTESTED BILLS, RESIDENTS**

Includes the portion of the bad debts of banks raising medium and long-term funds consisting of loans still to mature; up to 1994 these amounts have been deducted from the item "Loans". The transactions carried out in January 1997 between Banco di Napoli and the non-bank company SGA resulted in discontinuities in the figures for bad debts and loans. The bad debts of Isveimer, which has been wound up, are included until May 1998.

**S782741M – UNIVERSE OF BANKS: SHORT-TERM LOANS TO RESIDENTS**

For the sake of uniformity with the system of prudential returns introduced in 1995, the data on loans for banks raising medium and long-term funds have been recalculated up to December 1994 to include overdue instalments and the principal amounts of instalments due and to exclude the component of bad debts consisting of loans still to mature. Accordingly, overdue instalments and bad debts still to mature have been respectively deducted from and added to the item "Bad debts and overdue and protested bills".

As of December 1992 funds raised from public bodies purely for administration – i.e. used exclusively to grant

loans without the assumption of credit risk by the bank concerned – have been reclassified as memorandum items for banks raising medium and long-term funds. In order to avoid breaks in the series involved (public funds, loans and bad debts), the amounts for banks raising medium and long-term funds have been recalculated for earlier years in accordance with the new accounting policy.

The transactions carried out in January 1997 between Banco di Napoli and the non-bank company SGA resulted in substantial changes in the figures for bad debts and loans. The loans of Isveimer, which has been wound up, are included until May 1998.

**S824534M – UNIVERSE OF BANKS: BAD DEBTS AT ESTIMATED REALIZABLE VALUE**

The estimated realizable value of banks' bad debts is shown net of writedowns. For the years up to 1995 the figures are partly estimated.

**TDUE0110 – BANKS: LOANS (INCLUDING BAD DEBTS) BY BRANCH OF ECONOMIC ACTIVITY – RESIDENTS OF ITALY**

Table 9 (TDUE0110) shows loans to residents of Italy divided into the 23 branches of economic activity used to classify credit to sole proprietorships and corporations. It shows stocks and twelve-month percentage changes. Bad debts are included. Loans by sector of economic activity are shown in Table 4 on the basis of the ESCB harmonized definition, which includes performing loans, bad debts and repo assets.

**TDUE0120 – BANKS: BAD DEBTS BY SECTOR OF ECONOMIC ACTIVITY**

Table 10 (TDUE0120) shows banks' bad debts divided according to the sector to which borrowers belong, with reference to residents of Italy. The sectors considered are: general government, (subdivided into central government, local government and social security funds), financial institutions, insurance corporations and pension funds, corporations, and house-holds.

**TDUE0130 – BAD DEBTS BY BRANCH OF ECONOMIC ACTIVITY – RESIDENTS OF ITALY**

Table 11 (TDUE0130) shows banks' bad debts divided into the 23 branches of economic activity used to classify

credit to sole proprietorships and corporations. It shows stocks and twelve-month percentage changes. The data are available on a quarterly basis. The branch definitions are the same as those used in Table 9 (TDUE0110).

**TDUE0140 – BANKS: SPECIAL CREDIT TRANSACTIONS WITH RESIDENTS OF ITALY**

Table 12 (TDUE0140) shows banks' special credit transactions with residents of Italy: short-term and medium and long-term agricultural credit, real-estate credit, public works credit, and medium and long-terms subsidized credit. The data are available on a quarterly basis. For the definition of special credit transactions see Chapter VI of the 1993 Banking Law (Legislative Decree 385 of 1993). All banks can provide such financing. The definition does not coincide exactly with the financing traditionally provided in the past by the former special credit institutions. The items referring to agricultural credit include fishing credit.

**S876466Q – UNIVERSE OF BANKS: MEDIUM AND LONG-TERM SUBSIDIZED CREDIT**

Loans at interest rates below those prevailing in the market as a result of laws providing for contributions towards interest payments or the use of state or regional funds.

**S887990Q – UNIVERSE OF BANKS: REAL-ESTATE CREDIT TO RESIDENTS**

Includes building credit. The items are affected by inconsistencies in the data reported by banks.

**TDUE0150 – BANKS: SHARES AND PARTICIPATING INTERESTS BY TYPE OF COUNTERPARTY**

Table 13 (TDUE0150) shows banks' share portfolios and the composition of their participating interests. The total participating interests differ from the sum of the corresponding items in Table 1 (TDME0010-20) since in Table 13 they are shown net of the corresponding provisions for diminution in value. Participating interests are divided into those in companies resident in Italy and those in companies not resident in Italy, which include companies in both the euro area and the rest of the world. The participating interests in companies resident in Italy are subdivided into four types: non-financial corporations, banks, financial institutions and insurance corporations. The first of these subitems is further subdivided into

participating interests in auxiliary companies and other companies and the latter divided in turn into listed and unlisted companies. For the participating interests in companies not resident in Italy, the part accounted for by investments in banks is shown separately. The last column of Table 13 shows the value of banks' total share portfolios. The data on participating interests in companies other than banks are partially estimated up to July 1996.

**TDUE0160 – BANKS: SECURITIES HELD FOR SAFEKEEPING BY SECTOR OF HOLDER**

Table 14 (TDUE0160) shows the distribution of securities deposited with banks for safekeeping by holding sector. Securities are valued at face value; they do not include those deposited by banks or central banks. The items are affected by discontinuities and inconsistencies in the data reported by banks. The figures for residents of Italy are shown in total and divided into five sectors: non-financial corporations, financial institutions, insurance corporations, general government and households, which are subdivided into consumer households and sole proprietorships. The rest of the world includes the other euro-area countries. The last column shows the total amount of securities held for safekeeping with banks.

The table shows the amounts for which a securities deposit contract has been signed. It excludes indirect forms of fund-raising via asset management services, in particular the units of collective investment undertakings placed with third parties for which no securities deposit contract has been signed. The table also excludes the cumulative certificates of units of collective investment undertakings held for safekeeping with the depository bank at no charge, as clarified in the 15th update of the manual for compiling accounting supervisory reports of 31 July 2002. The clarification has given rise to a break in the series for "Financial institutions" and "Consumer households" as of December 2002.

**TDUE0170 – BANKS: SECURITIES HELD FOR SAFEKEEPING BY INSTRUMENT**

Table 15 (TDUE0170) shows the securities deposited with banks for safe keeping in the following forms: BOTs, CCTs, BTPs, certificates of deposit, shares, investment fund shares/units, bank bonds and other bonds. The last column of the table shows the part of the securities held for safekeeping accounted for by asset management activities.

The total in Table 15 coincides with the total residents column of Table 14. Securities are valued at face value; they do not include those deposited by banks or central banks. Assets under management are at market value. The items are affected by discontinuities.

The table shows the amounts for which a securities deposit contract has been signed. It excludes indirect forms of fund-raising via asset management services, in

particular the units of collective investment undertakings placed with third parties for which no securities deposit contract has been signed. The table also excludes the cumulative certificates of units of collective investment undertakings held for safekeeping with the depository bank at no charge, as clarified in the 15th update of the manual for compiling accounting supervisory reports of 31 July 2002. The clarification has given rise to a break in the series for "Investment funds" as of December 2002.
